evoked in 1848 is now nothing more than a ghostly and ghastly nightmare without form or substance This is because working people have developed a love hate relationship with capitalism They hate insecurity inequality and greed and love civic and political freedom They love mass consumption and accept the logic of commerce Barreling along through wars revolutions epidemics and crises of all sorts working people in their millions have consistently dumfounded and dismayed the left by their refusal to countenance any alternative to the capitalist mode of life We have to ask Is it possible to reverse this reality and once again talk of the necessity of communism
