Tourism, Heritage and Commodification of Non-human Animals: A Posthumanist Reflection Álvaro López López, Gino Jafet Quintero Venegas, Carol Kline, 2023-12-19

Heritage is a social construction rooted in modern and contemporary societies It is commonly a positive assessment of many elements of the physical and human environment e g ecosystems and landscapes monuments customs gender norms religious practices gastronomy and livelihoods Heritage and tourism are strongly related to each other in that heritage gives rise to tourist attractions and activities and tourism enhances the designation of heritage sites A post humanist perspective the moral valuation of equality between humans and other animals demands that both are sentient beings and self aware of their pain and pleasure Thus the involvement of animals as heritage elements by themselves or as an element of tourist consumption in heritage sites implies their commodification and lack of agency As such these practices are usually unethical since they threaten the animals primary interests not to suffer not to feel pain and to be able to live their freedom This book contains chapters that reveal both the unethical interactions between humans and animals within heritage tourism and those that show experiences in which efforts are made to minimize damage within the commercialization of animals involved as heritage themselves

Tourism Research in China Songshan Huang, Ganghua Chen, 2016

This book provides critical in-depth reviews on key themes and issues in tourism research in China. These themes include Chinese scholars' epistemological views of tourism, rural tourism development, community participation in tourism, tourist market and behaviour, tourist attraction management and tour guiding and interpretation in China. While Chinese scholars are often able to access key research in both English and Chinese, the majority of researchers from outside China without knowledge of the Chinese language are unable to read original research from China. This book seeks to redress this knowledge imbalance and bring key Chinese tourism research to the international tourism academic community. This book will be a valuable reference for tourism researchers, postgraduate students and industry professionals. *Winter Tourism* Ulrike Pröbstl-Haider, Harold Richens, Stefan Türk, 2019-10-03. Current planning challenges include the increasing importance of scenic beauty, nature and sustainable development, as well as snow reliability, snow management and safety issues.
