Compassionate Leadership for School Improvement and Renewal Kara Lasater, Kristina N. LaVenia, 2024-01-01 Compassionate Leadership for School Improvement and Renewal aims to equip educational leaders with the knowledge skills and learning experiences necessary to approach their work from an intentional stance of compassion Schools serve as both sites and sources of suffering yet compassionate leadership can facilitate healing for students educators and community members The moment is right to move the field toward a compassion centered approach to leadership In recent years people around the world have experienced unfathomable loss and suffering due to the COVID 19 pandemic persistent inequities and subsequent social justice protests war and violence and catastrophic natural disasters These events created perpetual anxiety stress fear uncertainty loss and grief for millions of people including educators Now perhaps more than ever people need to give and receive compassion The purpose of the volume is to build educational leaders capacity to demonstrate compassion foster collective compassion within their schools and districts establish organizational environments in which compassion is routinely given and received and subsequently transform schools into sites of healing Ultimately through the unique contributions of each chapter this volume offers a path toward school improvement that is both renewing and sustaining

ENDORSEMENTS As a former school counselor and school administrator my view about compassionate leadership is one grounded in relational practice This may be obvious to some but unfortunately lost on many This thoughtful volume edited by Kara Lasater and Kristina LaVenia explores a desperately needed reformulation of school leadership for our times Compassionate leadership takes enormous courage because it works against much of the institutional ethos that forms and frames the role thinking and behaviors of those ostensibly charged to both manage and lead schools William C Frick University of Oklahoma The education system is in its most challenging period

in decades perhaps in the past century The need now is to address student staff and organizational suffering Lasater and LaVenita et al offer antidotes in this volume by providing up to date research theory and insight to cultivate conceptualize and practice compassionate educational leadership For those who teach and lead with their heart this book is essential reading Joseph A Polizzi Sacred Heart University In an increasingly challenging educational landscape leaders find themselves facing teacher shortages student trauma and learning loss Schools could easily become institutions rife with secondary trauma and burned out professionals operating in stark contrast to the unifying motivations that drew each of us into this profession This volume reminds us that among the many skill sets leaders must employ organizational and leader compassion fulfills a fundamental human need and unlocks a means by which schools can transform from professional survival to the joyful work of changing lives for the better Joshua Ray Greenwood Public Schools **Teacher, Teacher! Norris,2002-03-20 Pressured by a society searching for a simple solution to a complex problem educators are constantly subjected to a double standard and their work and role marginalized as insignificant despite compelling evidence to the contrary This enlightening discussion of the misperceptions about the profession offers a thoughtful perspective on the real work done by educators and examines some of the harm done by efforts to fix what is wrong There is not a group of professionals in the work world who must bear as many demands yet who are so often undervalued as educators Norris calls attention to the sociological and physical factors that often influence the work of educators discussing the general perception of the teaching profession as well as more specific issues such as reform research and political agendas In a scholarly format he reports on the double standards demands and high expectations that teachers are forced to overcome in order to be successful This is must reading for anyone concerned about the status of teachers and teaching today *Brain-Friendly*

advice to those who need it the most **Assessment for Learning** Rita Berry, 2008-09-01 Assessment is an important part of effective teaching and learning. It allows achievements to be recognized and helps both teachers and learners to reflect on and review their performance and progress. While assessment has long been an end of learning activity to measure what learners can do, the outcome oriented approach does not always foster learning motivation effectively. A new perspective now encourages ongoing appraisal in the classroom to improve learning. This book reflects current thinking of assessment with a stated focus on assessment for learning (AfL). It informs teachers about the latest developments and provides teachers with important tools for integrating assessment in the classroom. The discussions on assessment theories are in depth and the examples used for illustrating the concepts are plentiful THE Journal , 1997
