Congratulations

You've just purchased the most intelligent radar and laser detector in the world—the PASSPORT 9500i.

The PASSPORT 9500i delivers immense laser radar protection on all radar bands including X, K, Ku, Superwide Ku, and Instant-on POP modes. Multiple front and rear laser sensors provide 500-degree laser protection, including the widest field of view.

For the ultimate in laser protection, the PASSPORT 9500i can also be used in conjunction with our Laser Shield product, which can be found at escortradar.com or call us toll-free at 800-435-3487 for more details.

The PASSPORT 9500i's GPS-powered intelligence provides permanent relief from false alarms including automatic close systems, motion sensors and other radar-based sensors. And, it comes pre-loaded with thousands of red light and fixed position speed camera locations throughout North America.

In addition, the PASSPORT 9500i introduces the following state-of-the-art performance and features:

- New AutoLearn feature automatically learns and rejects false radar sources based on exact location and frequency.
- New AutoPower feature automatically shuts off the detector to save unnecessary drain on your battery.
