World Radio TV Handbook, 2009 **The Listener's Voice** Elena Razlogova, 2012-10-15 During the Jazz Age and Great Depression radio broadcasters did not conjure their listening public with a throw of a switch the public had a hand in its own making The Listener's Voice describes how a diverse array of Americans boxing fans radio amateurs down and out laborers small town housewives black government clerks and Mexican farmers participated in the formation of American radio its genres and its operations Before the advent of sophisticated marketing research radio producers largely relied on listeners phone calls telegrams and letters to understand their audiences Mining this rich archive historian Elena Razlogova meticulously recreates the world of fans who undermined centralized broadcasting at each creative turn in radio history

Radio outlaws from the earliest squatter stations and radio tube bootleggers to postwar payola hungry rhythm and blues DJs provided a crucial source of innovation for the medium Engineers bent patent regulations Network writers negotiated with devotees Program managers invited high school students to spin records Taken together these and other practices embodied a participatory ethic that listeners articulated when they confronted national corporate networks and the formulaic ratings system that developed Using radio as a lens to examine a moral economy that Americans have imagined for their nation The Listener s Voice demonstrates that tenets of cooperation and reciprocity embedded in today s free software open access and filesharing activities apply to earlier instances of cultural production in American history especially at times when new media have emerged Airman's Guide ,1946 **Handbook to Practical Disaster Preparedness for the Family** Arthur T.
