Iep Math Subtracting With Regrouping Goal:

Rethinking Disability and Mathematics Rachel Lambert, 2024-04-08 Every child has a right to make sense of math and to use math to make sense of their worlds Despite their gifts students with disabilities are often viewed from a deficit standpoint in mathematics classrooms These students are often conceptualized as needing to be fixed or remediated *Rethinking Disability and Mathematics* argues that mathematics should be a transformative space for these students a place where they can discover their power and potential and be appreciated for their many strengths Author Rachel Lambert introduces Universal Design for Learning for Math UDL Math a way to design math classrooms that empowers disabled and neurodiverse students to engage in mathematics in ways that lead to meaningful and joyful math learning The book showcases how UDL Math can open up mathematics classrooms so that they provide access to meaningful understanding and an identity as a math learner to a wider range of students Weaved throughout the book are the voices of neurodiverse learners telling their own stories of math learning Through stories of real teachers recognizing the barriers in their own math classrooms and redesigning to increase access the book Reframes students with disabilities from a deficit to an asset perspective paving the way for trusting their mathematical thinking Offers equitable math instruction for all learners including those with disabilities neurodiverse students and or multilingual learners Applies UDL to the math classroom providing practical tips and techniques to support students cognitive affective and strategic development Immerses readers in math classrooms where all students are engaged in meaningful mathematics from special education day classes to inclusive general education classrooms from grades K 8 Integrates research on mathematical learning including critical math content such as developing number sense and place value fluency with math facts and operations and understanding fractions and algebraic thinking Explores critical issues such as writing IEP goals in math This book is designed for all math educators both those trained as general education teachers and those trained as special education teachers The UDL Math approach is adapted to work for all learners because everyone varies in how they perceive the world and in how they approach mathematical problem solving When we rethink mathematics to include multiple ways of being a math learner we make math accessible and engaging for a wider group of learners *IEPs for ELs* John J. Hoover, James R.

Patton, 2017-03-22 Develop and monitor high quality IEPs for diverse learners High quality IEPs are fundamental for guiding the educational process of and developing goals for students who require special education services English learners ELs and other students with learning emotional or behavioral disabilities present unique challenges to educators responsible for referring assessing and placing them IEPs for ELs provides educators with numerous research based strategies and examples of how to write effective IEPs for these K 12 learners John J Hoover and James Patton leading professionals in the areas of special education and linguistic diversity share their research and how they have supported ELs who have or are suspected of having learning and intellectual disabilities Readers will find Practical guidance for developing and monitoring culturally

and linguistically responsive IEPs Checklists guides and other reproducibles that support IEP development Case studies and vignettes highlighting examples of appropriate IEPs for diverse learners Filled with expert practical advice that covers the IEP process and walks the reader through the procedure for creating high quality IEPs that take individual differences into account this guide is essential for special educators and bilingual EL specialists A major strength for this book is its unique tie to English learners while providing a dual focus on IEP writing This is a great tool to use when training new special education teachers and IEP facilitators There are direct connections to writing legally defensible plans with a user friendly focus on IEP writing I see this book as a tool to support teachers and students in ensuring that language and cultural considerations are included when developing and updating individual plans Renee Bernhardt Supervisor Special Education Cherokee County School District GA
