

The Importance Of Accountability Essay Example

The importance of accountability in the army accountability is everything. The definition of accountability is an obligation or willingness to accept responsibility or to account for one's actions.

You have to have accountability for everything you do formation ceremonies to the items that you carry on you every day I'm going to give you 5 examples of when and why accountability would be very important example one having accountability of your soldiers if you are a NCO you always need to know where your soldiers are because Fort Bragg is a rapid deployment base and if your platoon gets called up to be on GRF and your soldiers are not where they are supposed to be then it is not only your ass it's everyone in the platoon.

You need to keep accountability of your soldiers for PT because if they have a random piss test and your soldier is not there they need to know why that is examples of when a NCO would need to keep accountability of their soldiers

A soldier not having accountability of his military ID is another example of why it is so important to have accountability of his or her stuff not too long ago we were at Fort Scom level Bravo and you had to have your ID to get into the motor pool even to get in to the barracks and one of the biggest things that not having accountability of your ID card is for the single soldiers trying to eat in the chow halls or trying to get on base losing your military identification card is punishable under UCMJ not having this one item will give you many problems you will have to go to the Provost Marshall's office and fill out a report just to get the permission to get another one then you have to go to either your brigade or division to get another one and it makes you look like a shitty soldier and that can and will stick with you for a while if a soldier does not keep accountability of his ID card he could also have his identity stolen and have bad credit or a terrorist could get ahold of it and get in to the base and plot attacks against the military that is why it is bad to not have accountability of your military ID card at all times if a soldier in Afghanistan or Iraq or even in the field and they do not have accountability on their weapon or NVG or map then post will be locked down until those items are found it is very important to not lose these because if they get put into the wrong hands a lot of people could die for example if you are in Afghanistan and you lose a map and the enemy gets ahold of it they can plan attacks send enemy forces to come attack us or bomb us losing your weapon if you lost your weapon you just armed an enemy and they will probably shoot at you with your own weapon and if you are like me and you have a family I don't think you want to be kept here until your weapon or your buddies weapon is found that's why it is always important of keeping accountability of your equipment. Having accountability is also a large part of being airborne. If you miss manifest or if

should have been included i e the role of curriculum in supporting or confining the enactment of inquiry the manner in which inquiry can shape students knowledge the role systemic efforts can have in enabling inquiry But given the confines of one text we ve chosen what we understood to be the central components and these have been arranged into 6 sections Our vision is that each of these sections can be self supporting so their appearance in the text doesn t represent the order in which they must be read Ideally the reader would engage in the introduction then select the section that addresses the dimension influencing classroom inquiry that is of greatest importance The only exception to this is section 6 which is a specific form of enactment of classroom inquiry engagement with this section may be best augmented after reading the sections that interest you
