Ruthazer,2022-07-01 *Official Gazette of the United States Patent and Trademark Office* United States. Patent and Trademark Office,1999 Excursions in Identity Laura Nenzi,2008-04-16 In the Edo period 1600 1868 status and gender based expectations largely defined a person s place and identity in society The wayfarers of the time however discovered that travel provided the opportunity to escape from the confines of the everyday Cultured travelers of the seventeenth and eighteenth centuries wrote travel memoirs to celebrate their profession as belle lettrists For women in particular the open road and the blank page of the diary offered a precious opportunity to create personal hierarchies defined less by gender and more by culture and refinement After the mid eighteenth century which saw the popularization of culture and the rise of commercial printing textbooks guides comical fiction and woodblock prints allowed not a few commoners to acquaint themselves with the historical lyrical or artistic pedigree of Japan s famous sites By identifying

themselves with famous literary and historical icons of the past some among these erudite commoners saw an opportunity to rewrite their lives and re create their identities in the pages of their travel diaries The chapters in Part One Re creating Spaces introduce the notion that the spaces of travel were malleable accommodating reconceptualization across interpretive frames Laura Nenzi shows that far from being static backgrounds these travelscapes proliferated in a myriad of loci where one person s center was another s periphery In Part Two Re creating Identities we see how in the course of the Edo period educated persons used travel to or through revered lyrical sites to assert and enhance their roles and identities Finally in Part Three Purchasing Re creation Nenzi looks at the intersection between recreational travel and the rising commercial economy which allowed visitors to appropriate landscapes through new means monetary transactions acquisition of tangible icons or other forms of physical interaction
