Gursky,Jatna Supriatna,Angela Achorn,2022-11-11 The basic goal of the volume is to compile the most up to date research on the effect of ecotourism on Indonesia s primates The tremendous diversity of primates in Indonesia in conjunction with the conservation issues facing the primates of this region have created a crisis whereby many of Indonesia s primates are threatened with extinction Conservationists have developed the concept of sustainable ecotourism to fund conservation activities National parks agencies worldwide receive as much as 84% of their funding from ecotourism While ecotourism funds the majority of conservation activities there have been very few studies that explore the effects of ecotourism on the habitat and species that they are designed to protect It is the burgeoning use of

ecotourism throughout Indonesia that has created a need for this volume where the successes and pitfalls at various sites can be identified and compared
