Diversified Urbanization Madio Fall, Souleymane Coulibaly, 2016-09-12 C te d Ivoire seeks a development strategy to reach middle income status a challenge that would require annual growth rates averaging 10 percent over the next 13 years Global experience of both developed and emerging economies shows that GDP per capita rises with increased urbanization However C te d Ivoire s economy is underperforming relative to its level of urbanization The country s urbanization has been negatively correlated with income per capita since the late 1970s and poverty has been increasing Rather than consider development of cities individually successful urbanization plans in C te d Ivoire should consider the country s cities as a portfolio of assets each differentiated by characteristics that include size location and

Public-Private Partnerships in Urban Bus Systems Alejandro Hoyos Guerrero, Abel Lopez Dodero, 2021-06-25 Many cities have sought to replicate the urban bus public private partnership PPP structures that succeeded at the beginning of the millennia such as those implemented in Brazil Colombia and Mexico These cities improved their public transportation systems in the face of rapid urbanization rising air pollution and increasing road safety incidents through these PPP interventions Examining these past international experiences and others *Public Private Partnerships in Urban Bus Systems An Analytical Framework for Project Identification and Preparation* first challenges the assumption that PPP structures are always the optimal approach for improving urban bus systems The authors use relevant case studies to demonstrate that structuring such PPPs in cities in the developing world requires tailor made interventions that respond to local contexts The authors identify essential elements for PPP feasibility and invite readers to consider alternative solutions for achieving the desired objectives This book presents an analytical framework that public transportation practitioners can use to support the process of identifying and preparing appropriate technical financial and legal structures to improve urban mobility if a PPP is the preferred solution It follows a detailed risk based approach to thoroughly analyze the challenges that might be experienced by cities that pursue private participation in proposed urban bus interventions Using specific examples the authors thoroughly analyze the risks and the specific potential planning stage challenges likely to be encountered and suggest strategies for practitioners to respond to the local contexts and the various

alternative solutions This study builds upon international experiences predominantly in Latin America and in PPPs focused on streamlining fleet provision and operation Finally the book helps to identify and define bankable project structures that could respond well to local contexts and minimize risks
