historians philosophers diplomats and merchants **Research Handbook on the History of Political Thought** Cary J. Nederman, Guillaume Bogiaris, 2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought Comprehensive in scope it covers historical methodology traditions epochs and classic authors and texts spanning from ancient Greece until the nineteenth century *Sovereignty, Property and Empire, 1500-2000* Andrew Fitzmaurice, 2014-10-23 This book analyses the laws that shaped modern European empires from medieval times to the twentieth century Its geographical scope is global including the Americas Europe Africa Asia Australia and the Poles Andrew Fitzmaurice focuses upon the use of the law of occupation to justify and critique the appropriation of territory He examines both discussions of occupation by theologians philosophers and jurists as well as its application by colonial publicists and settlers themselves Beginning with the medieval revival of Roman law this study reveals the evolution of arguments concerning the right to occupy through the School of Salamanca the foundation of American colonies seventeenth century natural law theories Enlightenment philosophers eighteenth century American colonies and the new American republic writings of nineteenth century jurists debates over the carve up of Africa twentieth century discussions of the status of Polar territories and the period of decolonisation **Becoming International** Jens Bartelson, 2023-10-26 When and how did the modern world become an international one Jens Bartelson a leading scholar of the history of international thought provides new answers to this question by analyzing how relations between polities have been conceptualized across different historical contexts from the sixteenth century to the present day A global intellectual history of the international system this book challenges the widespread assumption that this system emerged as a result of a transition from empires to states instead proposing that the international realm is but a continuation of imperial relations by other means Showing how the international system spread through the creative appropriation of European concepts of nation and state by non Europeans Bartelson argues that this system has taken on a life of its own to the point of becoming an empire in its own right **Empire, Race and Global Justice** Duncan Bell, 2019-02-21 The status of boundaries and borders questions of global poverty and inequality criteria for the legitimate uses of force the value of international law human rights nationality sovereignty migration territory and citizenship debates over these critical issues are central to contemporary understandings of world politics Bringing together an interdisciplinary range of contributors including historians political theorists lawyers and international relations scholars this is the first volume of its kind to explore the racial and imperial dimensions of normative debates over global justice **Europe and the British Geographical Imagination, 1760-1830** Paul Stock, 2019 Europe and the British Geographical Imagination 1760 1830 explores what literate Britons of the period understood about Europe focussing on key themes which shaped ideas about the continent including religion the natural environment race the state borders commerce empire and ideas about the past progress and historical change **The General Will** James Farr, David Lay Williams, 2015-02-16 Although it originated in theological debates the general will

ultimately became one of the most celebrated and denigrated concepts emerging from early modern political thought Jean Jacques Rousseau made it the central element of his political theory and it took on a life of its own during the French Revolution before being subjected to generations of embrace or opprobrium James Farr and David Lay Williams have collected for the first time a set of essays that track the evolving history of the general will from its origins to recent times

The General Will The Evolution of a Concept discusses the general will's theological political formal and substantive dimensions with a careful eye toward the concept's virtues and limitations as understood by its expositors and critics among them Arnauld Pascal Malebranche Leibniz Locke Spinoza Montesquieu Kant Constant Tocqueville Adam Smith and John Rawls

Empire and Order J. Muldoon, 1999-08-19 Empire is an evocative yet little examined word It can mean the domination of vast territories a Christian world order a corrupt form of government or a humanitarian endeavour Historians relegate the concept of empire to the pre modern world identifying the state as the characteristic political form of the modern world This book examines the range of meanings attributed to the concept of empire in the medieval and early modern world demonstrating how the concepts of empire and state developed in parallel not sequentially

The Oxford Handbook of History and International Relations Mlada Bukovansky, Edward Keene, Christian Reus-Smit, Maja Spanu, 2023-08-03 Historical approaches to the study of world politics have always been a major part of the academic discipline of International Relations and there has recently been a resurgence of scholarly interest in this area This Oxford Handbook examines the past and present of the intersection between history and IR and looks to the future by laying out new questions and directions for research Seeking to transcend well worn disciplinary debates between historians and IR scholars the Handbook asks authors from both fields to engage with the central themes of modernity and granularity Modernity is one of the basic organising categories of speculation about continuity and discontinuity in the history of world politics but one that is increasingly questioned for privileging one kind of experience and marginalizing others The theme of granularity highlights the importance of how decisions about the scale and scope of historical research in IR shape what can be seen and how one sees it Together these themes provide points of affinity across the wide range of topics and approaches presented here The Handbook is organized into four parts The first Readings gives a state of the art analysis of numerous aspects of the disciplinary encounter between historians and IR theorists Thereafter sections on Practices Locales and Moments offer a wide variety of perspectives from the longue dure to the ephemeral individual moment and challenge many conventional ways of defining the contexts of historical enquiry about international relations Contributors come from a range of academic backgrounds and present a diverse array of methodological and philosophical ideas as well as their various historical interests The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford

with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Locke's Political Thought and the Oceans Sarah Pemberton, 2017-05-09 This book outlines and analyzes John Locke s political thought about the oceans with a focus on law and freedom at sea The book examines the Two Treatises of

Government in which Locke argues that the seas are collectively owned by all humans and are governed by universal natural laws that prohibit piracy Locke's Two Treatises provides a systematic political theory of the seas that contributes to theories of international law and maritime law but his text does not answer the practical question of how to enforce law effectively at sea The book also considers how Locke translated his theoretical ideas into practice when he was involved in policymaking as a member of England's Board of Trade during the 1690s On the Board Locke waged a war against pirates by proposing an anti piracy treaty between Europe's major maritime states by successfully advocating a new English piracy law and by supporting the deployment of the English Navy against pirates Locke's war against pirates was consistent with the natural law theory in the Two Treatises and helped to build English empire on land and at sea There is also consistency between Locke's theoretical views about slavery and his work on the Board of Trade As a Board member Locke advocated forced migration and forced labor for English convicts which is consistent with the theory of penal slavery in the Two Treatises and suggests that his theory was intended to justify the enslavement of English convicts However there are tensions between Locke's arguments in the Two Treatises and the policies of forced naval service that he supported on the Board Locke's theories of law and freedom at sea shaped his vision of English national identity and influenced the English government's policies about slavery and piracy

Liberalism and the British Empire in Southeast Asia Gareth Knapman, Anthony Milner, Mary Quilty, 2018-10-10 This collection of essays collects the leading scholars on British colonial thought in Southeast Asia to consider the question what was the relationship between liberalism and the British Empire in Southeast Asia The empire builders in Southeast Asia Lord Minto William Farquhar John Leyden Thomas Stamford Raffles and John Crawfurd to name a few were fervent believers in a liberal free trade order in Southeast Asia Many recent studies of British imperialism and European imperialism more generally have addressed how the anti imperialist tradition of Eighteenth century liberalism was increasingly intertwined with the discourses of empire freedom race and economics in the nineteenth century This collection extends those studies to look at the impact of liberalism on British colonialism in Southeast Asia and early nineteenth century Southeast Asia we see some of the first attempts at developing multicultural democracies within the colonies experiments in free trade and attempts to use free trade to prevent war and colonisation
