End Of The Year Geography Memoradam For Paper1 2014:

The United States and the End of British Colonial Rule in Africa, 1941-1968 James P. Hubbard, 2014-01-10 At the end of World War II Britain possessed a vast African empire encompassing nearly 27 million square miles about 10 times larger than Britain itself But by 1965 only three small African territories remained under British control all of which would become independent before the end of 1968 This book examines the swift demise of Britain's African empire looking particularly at the role played by the United States in bringing the empire to an end It reveals how the United States was anti colonial without being actively pro independence concluding that the country's policies and actions combined with its postwar dominance directly and indirectly contributed to the political economic and social transformation of Africa **Deepening**

Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution *Sustainable Peace in Northeast Asia* Yong-Shik Lee, 2023-09-05 Sustainable Peace in

Northeast Asia examines the causes of lasting and complex tensions in the region from underlying political historical military and economic perspectives discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the dynamics that their engagement has created Both South Korea and North Korea have sought reunification of the Korean peninsula which will have a substantial impact on the region The book examines its justification feasibility and effects for the region The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia A relatively small country in terms of its population Mongolia has rarely been examined in this context Sustainable Peace in Northeast Asia makes a fresh assessment of its potential role *Nationalism and*

Intra-State Conflicts in the Postcolonial World Fonkem Achankeng, 2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges

deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles

International Handbook of Population Policies John F. May,Jack A. Goldstone,2022-07-01 This Handbook offers an array of internationally recognized experts essays that provide a current and comprehensive examination of all dimensions of international population policies The book examines the theoretical foundations the historical and empirical evidence for policy formation the policy levers and modelling as well as the new policy challenges The section Theoretical Foundations reviews population issues today population theories the population policies framework as well as the linkages between population development health food systems and the environment The next section Empirical Evidence discusses international approaches to design and implement population policies on a regional level The section Policy Levers and Modelling reviews the tools and the policy levers that are available to design implement monitor and measure the impact of population policies Finally the section New Policy Challenges examines the recurrent and emerging issues in population policies This section also discusses prospects for demographic sustainability as well as future considerations for population policies As such this Handbook provides an important and structured examination of contemporary population policies their evolution and their prospects

The Empirical and Institutional Dimensions of Smart Specialisation Philip McCann, Frank van Oort, John Goddard,2016-11-25 Smart specialisation is the new policy approach to the development of regional innovation systems across Europe and it involves fostering innovative and entrepreneurial initiatives which are well tailored to the local context The different technologies skills profiles business activities institutions and sectors which reflect a region s economic strengths and potential are to be fostered and encouraged to diversify in ways which also exploit the region s linkages with broader global value chains Yet the ideas contained in the smart specialisation agenda have until now been primarily conceptual in nature The Empirical and Institutional Dimensions of Smart Specialisation draws together some of the leading regional economists and scientists in Europe to analyse how smart specialisation is working in practice This book investigates different dimensions of the agenda as it is developing across parts of Europe from both quantitative and qualitative perspectives The quantitative analysis examines the nature of the diversification processes undertaken by regions and the interplay between the chosen local regional development priorities and the wider global value chain impacts of these choices Meanwhile the qualitative analysis examines the institutional opportunities and challenges facing policy makers and the key elements most likely to provide the underpinnings of a workable set of policy settings The book is aimed both at academic researchers interested in the interface between economic geography and regional innovation systems as well as at policy makers making public policy decisions related to regional development at the local city regional or national levels

When the President Calls Simon W. Bowmaker, 2019-10-15 Interviews with thirty five economic policymakers who advised presidents from Nixon to Trump What is it like to sit in the Oval Office and discuss policy with the president To know that the decisions made will affect hundreds of millions of people To know that the wrong advice could be calamitous When the President Calls presents interviews with thirty five economic policymakers who served presidents from Nixon to Trump These officials worked in the executive branch in a variety of capacities the Council of Economic Advisers the Office of Management and Budget the Department of the Treasury and the National Economic Council but all had direct access to the policymaking process and can offer insights about the difficult tradeoffs made on economic policy The interviews shed new light for example on the thinking behind the Reagan tax cuts the economic factors that cost George H W Bush a second term the constraints facing policymakers during the financial crisis of 2008 the differences in work styles between Bill Clinton and Barack Obama and the Trump administration s early budget process When the President Calls offers a unique behind the scenes perspective on US economic policymaking with specific and personal detail the turmoil the personality clashes the enormous pressure of trying to do the right thing while the clock is ticking Interviews with Nicholas F Brady Lael Brainard W Michael Blumenthal Michael J Boskin Stuart E Eizenstat Martin S Feldstein Stephen Friedman Jason Furman Austan D Goolsbee Alan Greenspan Kevin A Hassett R Glenn Hubbard Alan B Krueger Arthur B Laffer Edward P Lazear Jacob J Lew N Gregory Mankiw David C Mulford John Michael Mulvaney Paul H O Neill Peter R Orszag Henry M Paulson Alice M Rivlin Harvey S Rosen Robert E Rubin George P Shultz Charles L Schultze John W Snow Gene B Sperling Joseph E Stiglitz Lawrence H Summers John B Taylor Paul A Volcker Murray L Weidenbaum Janet L Yellen Delivering a Sustainable Railway Great Britain. Parliament. House of Commons. Transport Committee, 2008 The White Paper Delivering a sustainable railway Cm 7176 ISBN 9780101717625 published on July 2007 and set the Government s general vision for the railways for the next thirty years Network Rail s engineering overruns at New Year 2008 caused tremendous inconvenience to passengers across the country and inevitably shaped the Committee s oral evidence sessions The Committee s investigation along with analyses from the Office of Rail Regulation ORR have led them to believe that the engineering overruns are symptomatic of crucial system flaws which have to be resolved if there is to be any hope of getting a sustainable railway as promised in the White Paper This report covers both subjects **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace, 1969 *Dealing with Peace* Simon Granovsky-Larsen, 2019-03-20 *Dealing with Peace* presents the struggles of the Guatemalan campesino peasant social movement during the country s post conflict transition from 1996 to the present focusing on efforts to obtain land and improve livelihoods within a shifting yet consistently hostile political economic environment With special focus on the relationship between the movement and the neoliberal state Simon Granovsky Larsen asks whether the acceptance of neoliberal resources in this case support for land access in Guatemala provided by the World Bank funded Fondo de Tierras

reduces the potential for social movements to continue to work for transformative change Positioned in contrast to studies warning that social movements cannot maintain their original vision after accepting such support this book argues that organizations within the Guatemalan campesino movement have engaged strategically with neoliberalism utilizing available resources to advance visions of social change Using a wealth of primary data collected over more than a year of fieldwork it contributes significantly to the study of Guatemalan politics and advances understandings of the grounded operation of neoliberalism Exploring both the dynamics of a national neoliberal transition and the ways in which these play out within civil society Dealing with Peace reveals the long term and often contradictory negotiation of political and economic transitions

Fight or Flight Martin Thomas, 2014-03-13 Although shattered by war in 1945 Britain and France still controlled the world's two largest colonial empires with imperial territories stretched over four continents And they appeared determined to keep them the roll call of British and French politicians soldiers settlers and writers who promised in word and print at this time to defend their colonial possessions at all costs is a long one Yet within twenty years both empires had almost completely disappeared The collapse was cataclysmic Peaceable transfers of power were eclipsed by episodes of territorial partition and mass violence whose bitter aftermath still lingers Hundreds of millions across four continents were caught up in the biggest reconfiguration of the international system ever seen In the meantime even the most dogged imperialists who had once stiffly defended imperial rule ultimately bent to the wind of change By the early 1950s Winston Churchill had retreated from his wartime pledge to keep Britain's Empire intact And General de Gaulle who quit the French presidency in 1946 complaining that France's new post war democracy would never hang on to the country's imperial prizes narrowly escaped assassination a generation later after negotiating the humiliating French withdrawal from Algeria Fight or Flight is the first ever comparative account of this dramatic collapse explaining the end of the British and French colonial empires as an intertwined even co dependent process Decolonization gathered momentum not as an empire specific affair but as a global one in which the wider march of twentieth century history played a vital part industrial concentration and global depression World War and Cold War Communism and other anti colonial ideologies mass consumerism and the allure of American popular culture Above all as Martin Thomas shows the internationalization of colonial affairs made it impossible to contain colonial problems locally spelling the end for Europe's two largest colonial empires in less than two decades from the end of the Second World War

The Poisoning of the American Mind Lawrence M. Eppard, Jacob L. Mackey, Lee Jussim, 2024-09-25 What would you have to believe in order to dress up as a shaman paint your face and storm the U S Capitol What could possibly lead somebody to claim that it upholds white supremacy to encourage hard work self reliance rational thinking punctuality and politeness Such behaviors would have been unimaginable only a few years ago And yet here we are witnessing millions of people across the political spectrum displaying these clear indications of an epistemically poisoned mind Both red America and blue America are retreating into their own information bubbles seceding from a

common reality Both consume far too much misinformation and disinformation developing worldviews that can sometimes be unintelligible to others This book explores these disturbing developments and what they mean for our society and implores us all to recover a shared sense of what is true **Fighting the Great War at Sea** Norman Friedman,2014-10-22 The

overriding image of the First World War is the bloody stalemate of the Western Front but although much of the action did occur on land the overall shape of the war _ even the inevitability of British participation _ arose out of its maritime character It was essentially a struggle about access to worldwide resources most clearly seen in the desperate German attempts to deal with the American industrial threat which ultimately levered the United States into the war and thus a consequence of British sea control rn This radical new book concentrates on the way in which each side tried to use or deny the sea to the other and in so doing it describes rapid wartime changes not only in ship and weapon technology but also in the way naval warfare was envisaged and fought Combat produced many surprises some like the impact of the mine and torpedo are familiar but this book also brings to light many previously unexplored subjects like creative new tactical practices and improved command and control rn The contrast between expectation and reality had enormous consequences not only for the course of the war but also for the way navies developed afterwards This book melds strategic technical and tactical aspects to reveal the First World War from a fresh perspective but also demonstrates how its perceived lessons dominated the way navies prepared for the Second American Democracy Andrew J. Perrin,2014-04-10 In this groundbreaking book sociologist Andrew Perrin

shows that rules and institutions while important are not the core of democracy Instead as Alexis de Tocqueville showed in the early years of the American republic democracy is first and foremost a matter of culture the shared ideas practices and technologies that help individuals combine into publics and achieve representation Reinterpreting democracy as culture reveals the ways the media public opinion polling and changing technologies shape democracy and citizenship As Perrin shows the founders of the United States produced a social cultural and legal environment fertile for democratic development and in the two centuries since citizens and publics use that environment and shared culture to re imagine and extend that democracy American Democracy provides a fresh innovative approach to democracy that will change the way readers understand their roles as citizens and participants Never will you enter a voting booth or answer a poll again without realizing what a truly social act it is This will be necessary reading for scholars students and the public seeking to understand the challenges and opportunities for democratic citizenship from Toqueville to town halls to Twitter
