1. Welcome

Good day everyone and welcome to the ITSS year end function. It is good to see so many of you are here to celebrate our year function. And it's a pleasure to be able to tell you, once again, how much I appreciate all the good work you do.

I know that you sometimes put in a long day and wonder if anyone has really noticed.

Today, I want to reassure you: we do notice, we do appreciate what you do, we do value it, and we are grateful.

So thank you for your dedication, thank you for your imagination, and thank you for delivering another very good year.

I just have two things that I would like to talk about this year.

And you may even get a smile from some people that do not normally smiles. Sometimes I wish there was a "**pause button**" and we could capture the attitude and the positive energy of the people that exists at that time as make that the 'pledge' the way we should live our lives.

But what happens, few days after the funeral we get back normal ways, gossiping about people, character assassinations, rumour mongering. We need to grow up and channels all those energies to the good of mankind instead of wasting all those energies.

3. Microsoft Project

We spent about two years with Microsoft project, and the project was successful. With this project we touched almost everyone in DUT one way or another. For all the staff that was directly in the project including, those who were not directly involved, thank you for a job well done. You have contributed in one way or another to the success of the project.

During the last six months, wherever I go I will meet some staff from DUT in a mall, corridor or car park. Their conversation is usually about the Microsoft project. They will complain about outlook, notice boards, the
