The British National Bibliography Arthur James Wells, 2009 [American Book Publishing Record](#), 2006 **The History of Correlation** John Nicholas Zorich, 2024-12-04 After 30 years of research the author of The History of Correlation organized his notes into a manuscript draft during the lockdown months of the COVID 19 pandemic Getting it into shape for publication took another few years It was a labor of love Readers will enjoy learning in detail how correlation evolved from a completely non mathematical concept to one today that is virtually always viewed mathematically This book reports in detail on 19th and

20th century English language publications it discusses the good and bad of many dozens of 20th century articles and statistics textbooks in regard to their presentation and explanation of correlation The final chapter discusses 21st century trends Some topics included here have never been discussed in depth by any historian For example Was Francis Galton lying in the first sentence of his first paper about correlation Why did he choose the word co relation rather than correlation for his new coefficient How accurate is the account of the history of correlation found in H Walker s 1929 classic *Studies in the History of Statistical Method* Have 20th century textbooks misled students as to how to use the correlation coefficient Key features of this book Charts tables and quotations or summaries of them are provided from about 450 publications In depth analyses of those charts tables and quotations are included Correlation related claims by a few noted historians are shown to be in error Many funny findings from 30 years of research are highlighted This book is an enjoyable read that is both serious and occasionally humorous Not only is it aimed at historians of mathematics but also professors and students of statistics and anyone who has enjoyed books such as Beckmann s *A History of Pi* or Stigler s *The History of Statistics*
