Student Exploration: Inheritance

Vocabulary: acquired trait, asexual reproduction, clone, codominant traits, dominant trait, offspring, recessive trait, sexual reproduction, trait

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

1. How are you similar to your parents? Me and my mom both have blue eyes and me and my dad share the same nose shape.
2. How are you different? Me and my dad have different hair color and me and my mom have different lip shape.
3. A **trait** is a characteristic. Think about your physical traits (eye color, skin tone, height, hair, face, allergies, etc.) What traits do you think you inherited, or received, from your parents?

I think I inherited everything from my parents because half my DNA is from my mom and half my DNA is from my dad.

Gizmo Warm-up

In the *Inheritance* Gizmo you can create and breed aliens on an imaginary planet. Select **Asexual reproduction**. During **asexual reproduction**, a single parent produces **offspring** (children).

1. Click **Create alien** and create your own alien. Describe its traits in the **Parent** row of the table:

Alien	Body type	Skin Color	Antenna shape	Tattoo
Parent	Medium	Green	Straight	None
Offspring	Medium	Green	Straight	None

2. Drag the parent over to the **Parent 1** space and press **Reproduce**. Fill in the **Offspring** traits on the table above. What traits appear to be inherited from the parent?

All traits were inherited from the parent.

Because this offspring inherits its traits from one parent, it is called a **clone**.
