Handbook of the Life Course this second volume identifies future directions for life course research and policy The  
introductory essay and the chapters that make up the five sections of this book show consensus on strategic next steps in life  
course studies These next steps are explored in detail in each section Section I on life course theory provides fresh  
perspectives on well established topics including cohorts life stages and legal and regulatory contexts It challenges life  
course scholars to move beyond common individualistic paradigms Section II highlights changes in major institutional and  
organizational contexts of the life course It draws on conceptual advances and recent empirical findings to identify promising  
avenues for research that illuminate the interplay between structure and agency It examines trends in family school and  
workplace as well as contexts that deserve heightened attention including the military the criminal justice system and natural  
and man made disaster The remaining three sections consider advances and suggest strategic opportunities in the study of  
health and development throughout the life course They explore methodological innovations including qualitative and three  
generational longitudinal research designs causal analysis growth curves and the study of place Finally they show ways to  
build bridges between life course research and public policy **Monthly Catalogue, United States Public Documents**
