## *10. Challenges to Development II: From Women-in-Development to Gender Mainstreaming* *Naila Kabeer*

One of the earliest expressions of **dissent with modernization** and “trickle down” approaches to development came from **feminist constituencies**. Some argued that the assumed **benefits of development were unevenly distributed between men and women** and that development could exacerbate the gender gap in access to resources. Starting from a plea in the 1970s to “include” women in development, the field has moved on to acknowledging gender as one of the **central axes of power** differentials in society. Gender analysis in development planning and gender “**mainstreaming**” in institutional design are now an accepted part of the development lexicon.

### **EXAM QUESTIONS**

**2010:** ‘Gender analysis provides useful tools for planning at the project level but does little to address structural inequalities based on gender.’ Evaluate this statement.

**2009:** ‘The incorporation of gender concerns into development policy and practice may be both hailed as a great success and critiqued as an unfulfilled promise’. Discuss critically using relevant illustrations.

**2008:** How have attempts to address gender inequalities in development reflected the changing priorities of the mainstream development agenda?

**2007:** The move from WID to GAD changed understandings of empowerment.’ Assess.

**2006:** Represented to technocrats and policy-makers in the form of tools, frameworks and mechanisms, ‘gender’ appears devoid of political intent.” Evaluate this statement with reference to frameworks for gender analysis.

**2005:** What are the limitations of considering:

(a) gender relations

OR

(b) environmental issues

as merely additional items on the development policy agenda?

How might those limitations be overcome?

**2004:** “Advocacy for mainstreaming gender in development has more often than not taken the form of efficiency rather than equity arguments.” What are the implications of this statement for the empowerment of women?

**2003:** How convincing do you find the concept of ‘mainstreaming gender’ as a vehicle of women’s empowerment in the South?

**Gender Inclusive Engineering Education** Julie Mills, Mary Elizabeth Ayre, Judith Gill, 2011-02-09 Women continue to comprise a small minority of students in engineering education and subsequent employment despite the numerous initiatives over the past 25 years to attract and retain more women in engineering. This book demonstrates the ways in which traditional engineering education has not attracted supported or retained female students and identifies the issues needing to be addressed in changing engineering education to become more gender inclusive. This innovative and much needed work also addresses how faculty can incorporate inclusive curriculum within their courses and programs and provides a range of exemplars of good practice in gender inclusive engineering education that will be immediately useful to faculty who teach engineering students.

*Exploring Gender and LGBTQ Issues in K-12 and Teacher Education* Adrian D. Martin, Kathryn J. Strom, 2019-03-01 Past research on gender and LGBTQ issues in K 12 and teacher education has primarily focused on identifying ways of fostering inclusive and affirmative school communities for non cis and or queer students and enabling learning contexts to promote academic learning Much of this work has attended to theorizing pedagogies and curricula conducive towards such an aim Yet despite legal advances for gender equity and LGBTQ rights in diverse global contexts and the increased visibility of LGBTQ issues in mainstream media non cis and queer individuals especially those of color continue to experience violence face housing discrimination employment discrimination and the denial of service in public businesses In light of the numerous growing conservative movements to not only roll back legal advances for LGBTQ individuals but to also promote a culture of homophobia and transphobia scholars must attend to the myriad ways in which members of the school community can counter such efforts and how the multiple facets of the educative experience can be conceptualized beyond a paradigm that

continues to marginalize gender diverse and LGBTQ individuals This volume Exploring Gender and LGBTQ Issues in K12 and Teacher Education A Rainbow Assemblage edited by Adrian D Martin and Kathryn J Strom provides examples of empirical inquiries and theorizations that explore how schools can function as more than safe academic environments for gender diverse and LGBTQ students The contributing authors attend to classrooms and educative contexts as spaces that promote the affirmative inclusion of not only LGBTQ students but other education stakeholders as well with the aim to dismantle homophobia transphobia misogyny and other hate based ideologies The volume serves as an insightful and useful resource for educators teacher educators and education researchers engaged in inquiry and pedagogy towards systems of schooling unencumbered by heteronormativity other hate based ideologies with implications for future professional practice
