Astral Prime Mission Pack 1 J.S. Morin,M.A. Larkin,2018-10-11 They found a planet where none belonged They should have left it alone It is a planet like nothing the galaxy has seen Found deep in the astral Inhabited by creatures out of myth and legend Formerly inhabited by a race far more advanced than anyone could have imagined And now it s been discovered a bunch of reckless opportunists and enthusiastic amateurs No one is prepared for what comes next Mission 1 Shadow Planet Her family s company went bankrupt With nothing but a failing mining station as severance pay Director Fujita Hiroko moves to the edge

of the galaxy to keep the station afloat When the nearby planet vanishes with her and her survey team still on the surface hopes of mining are quickly replaced by a more pressing goal finding a way back to her station Mission 2 Wizard Zero When a survey team unearths buildings on prospective mining planet at first it is hailed as an archeological jackpot But the ancient structures are more advanced than anyone has seen And the hedge against technology is a wizard Mission 3 Shielded Sun With rival factions in orbit around Shadow Planet the obvious threat was one another When the defenses of an ancient alien outpost activate trapping everyone in the star system it becomes clear that there was more to worry about beneath the planet's surface than in orbit around it Mission 4 Prime Guardian The ancient solution to get magic and tech to coexist lies within an alien structure older than any race in the galaxy Now the balance of power threatens to tip As factions reinforce their fleets for a war to claim the ultimate technological prize Hiroko finds herself trapped between three races one of them her own in a quest where even victory promises disaster Bonus Short Story Tour of Darkness The galaxy's oldest historical site has become a tourist attraction It also holds untold secrets that could shift the course of civilization How far will one lone wizard go to protect the ancient technology that lies within Black Ocean Astral Prime hearkens back to location based space sci fi classics like Babylon 5 and Star Trek Deep Space Nine Astral Prime builds on the rich Black Ocean universe introducing a colorful cast of characters for new and returning readers alike Come along for the ride as a minor outpost in the middle of nowhere becomes a key point of interstellar conflict

A New Kind of Computational Biology Parimal Pal

Chaudhuri, Soumyabrata Ghosh, Adip Dutta, Somshubhro Pal Choudhury, 2018-09-26 This book reflects more than three decades of research on Cellular Automata CA and nearly a decade of work on the application of CA to model biological strings which forms the foundation of A New Kind of Computational Biology pioneered by the start up CARL Bio After a brief introduction on Cellular Automata CA theory and functional biology it reports on the modeling of basic biological strings with CA starting with the basic nucleotides leading to codon and anti codon CA models It derives a more involved CA model of DNA RNA the entire translation process for amino acid formation and the evolution of protein to its unique structure and function In subsequent chapters the interaction of Proteins with other bio molecules is also modeled The only prior knowledge assumed necessary is an undergraduate knowledge of computer programming and biology The book adopts a hands on do it yourself approach to enable readers to apply the method provided to derive the CA rules and comprehend how these are related to the physical rules observed in biology In a single framework the authors have presented two branches of science Computation and Biology Instead of rigorous molecular dynamics modeling which the authors describe as a Bottoms Up model or relying on the Top Down new age Artificial Intelligence AI and Machine Language ML that depends on extensive availability of quality data this book takes the best from both the Top Down and Bottoms up approaches and establishes how the behavior of complex molecules is represented in CA The CA rules are derived from the basic knowledge of molecular interaction and construction observed in biological world but mapped to a few subset of known results to derive and predict

results This book is useful for students researchers and industry practitioners who want to explore modeling and simulation of the physical world complex systems from a different perspective It raises the inevitable the question Are life and the universe nothing but a collection of continuous systems processing information **On the Edge of Reality** Colin
