Oppliger,2013-10-03 The numerous anti bullying programs in schools across the United States have done little to reduce the number of reported bullying instances One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents bullying and mean girl behavior This book addresses media role models in television film picture books and the Internet in the realm of bullying and relational aggression It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all Young viewers may learn ineffective even dangerous ways of handling aggressive situations Victims may feel discouraged when they are unable to handle the situation as easily as in media portrayals They may also feel their experiences are trivialized by comic portrayals Entertainment programming aimed particularly at adolescents often portray adults as incompetent or uncaring and include mean spirited teasing In addition overuse of the term bully and defining all bad behavior as bullying may dilute the term and trivialize the problem

Girling,2017-09-19 This book first published in 1969 casts a critical eye over the problem of insurgency The author sees insurgency not just as a matter of technique military tactics or organizational skill nor as the result of force and fraud but as people s war the conditions in which the mass of the people become involved voluntarily or otherwise on either side He quotes Nasution s statement The guerrilla movement is only the result not the cause of the problem People s war brings the peasantry hitherto ignorant apathetic or rejected into the political process For war is the continuation of politics by other means In Asia this was essentially a peasant s war arising when peasant grievances interests or demands cannot be met under the existing legitimate but urban or landowner orientated system of rule It shows little understanding to blame outside intervention when peasant and nationalist unrest leads to revolt The Chinese Communists did not owe success to Soviet aid the Vietminh to Chinese assistance or the Vietcong to North Vietnamese intervention The conclusion applies to governments as to insurgents no amount of outside aid can win the war for them if they themselves are incapable and the people on whom they depend for support have no will to fight This book based on first hand experience of the area and on study of original sources offers 1 an analysis of people s war in China Indochina and Vietnam 2 a critique of US policy in Laos and Vietnam and 3 a comparison with counter measures in Malaya the Philippines and Indonesia It is both original and constructive Congressional Record United States.
