nadir of his military career which climaxed in December 1863 with him submitting a letter of resignation as commander of the First Corps of the Army of Northern Virginia For Ambrose Burnside commander of the Federal forces the campaign demonstrated his leadership and tactical ability following his December 1862 debacle as commander of the Army of the Potomac at the Battle of Fredericksburg Virginia For the region of East Tennessee and Knoxville the campaign enabled the people to reach the pinnacle they had aspired to since their settlement of the region They had escaped economic and religious oppression in Europe negotiated and fought with the Cherokee Indian Nation created the State of Franklin which was denied statehood saw its political power vanish to Middle Tennessee and was limited in its economic development by the region s landscape

Confederate Tide Rising Joseph L. Confederate Daughters Victoria E. Ott,2008-02-22 Book Description A Generation at War explores the intersection of gender age and Confederate identity through the lives of teenage daughters from slaveholding secessionist families throughout the South These young women who came of age in a time of secession and war clung tenaciously to the gender ideals that lauded motherhood and marriage as the fulfillment of female duty and the racial order of the slaveholding South that defined their status and afforded them numerous material privileges When differences between the North and South proved irreconcilable southern daughters demonstrated extraordinary agency in protecting their future as wives mothers and slaveholders Centered in the culture of their youth gender and class group they threw their support behind the movement to create a Confederate identity Their loyalty to the nascent nation born out of a conservative movement to uphold the status quo ultimately brought them into new areas of work civic activism and courtship rituals After the war young women drew from their wartime experiences as youths in constructing their own female imagery in the Lost Cause mythology that stood apart from the typical older maternal figure What emerges from their experiences is the creation of a transformative female identity that bridged the cultural gap between the antebellum and postbellum periods paving the way for the emergence of a new understanding of southern womanhood in the New South era A generational approach allows

readers to take a more in depth look at the transitional nature of wartime and its long term effects on women s self perceptions While many studies of southern women tend to lump teenage daughters with the older generation of women this examination singles them out as a unique group whose experiences made a significant contribution to the new woman in the New South This study therefore will serve as a useful tool to students and teachers of southern women s history providing a new perspective on the female experience and the changing ideas of womanhood that war produces The detailed account of teenage daughters and their wartime activities and relationships will also appeal to a more general readership interested in Civil War history
