Transforming Assessment Jens Dolin,Robert Evans,2017-10-14 This book reports the results of a research project that investigated assessment methods aimed at supporting and improving inquiry based approaches in European science technology and mathematics STM education The findings were used to influence policy makers with guidelines for ensuring that assessment enhances learning The book provides insights about The concept of competence within the STM domains and its relevance for education The conceptualisation and teaching of four key competences scientific inquiry mathematical problem solving design processes and innovation Fundamental aspects of the two main purposes of assessment formative and summative the relations between the two purposes and ways of linking them The main challenges related to the uptake of formative assessment in daily teaching learning practices in STM and specifically the usability of formative on the fly dialogue structured assessment dialogue peer assessment and written teacher feedback The systemic support measures and tools teachers need in order to integrate formative assessment of student learning into their classroom practices and how it can conflict with summative assessment practices How research based strategies for the formative use of assessment can be adapted to various European educational traditions to ensure their effective use and avoid undesirable consequences How relevant stakeholders can be invited to take co ownership of research results and how a productive partnership between researchers policy makers and teachers can be established Concrete research vistas that are still needed in international assessment research

Handbook of Formative Assessment Heidi Andrade,Gregory J. Cizek,2010-04-02 Formative assessment has recently become a focus of renewed research as state and federal policy makers realize that summative assessments have reached a point of diminishing returns as a tool for increasing student achievement Consequently supporters of large scale testing programs are now beginning to consider the potential of formative assessments to improve

student achievement The mission of this handbook is to comprehensively profile this burgeoning field of study Written by leading international scholars and practitioners each chapter includes a discussion of key issues that dominate formative assessment policy and practice today as well as those that are likely to affect research and practice in the coming years Key features include Comprehensive nineteen chapters cover all aspects of formative assessment including classroom assessment large scale applications technological applications applications for special needs students K 12 and post secondary applications psychometric considerations case studies and discussion of alternative assessment formats such as portfolios and performance assessments Integrative thoughtful attention is given to the integration of large scale and classroom assessments Practical provides practical guidance on how to conduct formative assessments that generate credible information to guide instruction Global provides perspectives from leading international scholars and practitioners whose expertise spans diverse settings student populations and educational systems Accessible Style although grounded in the latest research the book s style and tone has been carefully crafted to make it accessible to both the textbook and professional markets It will also be a critical reference book for researchers in teacher preparation educational administration and educational policy studies

Handbook of Formative Assessment in the Disciplines Heidi L. Andrade,Randy E. Bennett,Gregory J. Cizek,2019-05-14 The Handbook of Formative Assessment in the Disciplines meaningfully addresses current developments in the field offering a unique and timely focus on domain dependency Building from an updated definition of formative assessment the book covers the integration of measurement principles into practice the operationalization of formative assessment within specific domains beyond generic strategies evolving research directions including student involvement and self regulation and new approaches to the challenges of incorporating formative assessment training into pre service and in service educator training As supporters of large scale testing programs increasingly consider the potential of formative assessments to improve teaching and learning this handbook advances the subject through novel frameworks intersections of theory research and practice and attention to discernible disciplines Written for instructors graduate students researchers and policymakers each chapter provides expert perspectives on the procedures and evaluations that enable teachers to adapt teaching and learning in process toward student achievement

What works in early grade literacy instruction Jennae Bulat,Margaret Dubeck,Paula Green,Karon Harden,Catherine Henny,Mónika Mattos,Alison Pflapsen,Ana Robledo,Yasmin Sitabkhan,2017-02-28 Over the past decade RTI International has pursued the goal of quality inclusive differentiated early grade literacy instruction in nearly 30 early grade reading or early grade literacy programs in low and middle income LMI countries Across our diverse portfolio we have supported Ministries of Education Ministries in diverse contexts in their development and implementation of research based early grade literacy programs and have learned important lessons based on our experience working with Ministries to design develop and implement early grade literacy programs This paper describes the core elements that we have found to improve early grade

literacy instruction and learner outcomes the approach to teaching Teach the availability of quality relevant learner materials Text the effective use of instructional time Time the use of formative assessment to guide instruction Test and provision of instruction in the most effective language Tongue This paper focuses on the acquisition of literacy in alphabetic and alphasyllabic languages in the early primary years most typically academic levels 1 through 3 and the kinds of exposures instruction and support learners need to become fully literate These are the elements of a literacy program that can be taught that should be present in teaching and learning materials and in teacher trainings and that relate specifically to what happens in a classroom Many more factors contribute to literacy acquisition However we focus on the core elements in this paper to delve deeper and facilitate a richer discussion about these components No one size fits all approach to the development and implementation of literacy programs exists the local context and constraints of any implementation can require adaptation and adjustments In many cases the fully diversified approach to early grade literacy instruction described in the classroom scenario has not yet been achieved However we hope that this compilation of lessons learned and best practices achieved through our experiences will help to further the efforts of all to provide high quality effective literacy instruction to all learners particularly those in LMI countries

Studies in Science Education in the Asia-Pacific

Region May Cheng, Alister Jones, Cathy Bunting, 2017-09-13 Consistent with international trends there is an active pursuit of more engaging science education in the Asia Pacific region The aim of this book is to bring together some examples of research being undertaken at a range of levels from studies of curriculum and assessment tools to classroom case studies and investigations into models of teacher professional learning and development While neither a comprehensive nor definitive representation of the work that is being carried out in the region the contributions from China Hong Kong Taiwan Korea Japan Singapore Australia and New Zealand give a taste of some of the issues being explored and the hopes that researchers have of positively influencing the types of science education experienced by school students The purpose of this book is therefore to share contextual information related to science education in the Asia Pacific region as well as offering insights for conducting studies in this region and outlining possible questions for further investigation In addition we anticipate that the specific resources and strategies introduced in this book will provide a useful reference for curriculum developers and science educators when they design school science curricula and science both pre service and in service teacher education programmes The first section of the book examines features of science learners and learning and includes studies investigating the processes associated with science conceptual learning scientific inquiry model construction and students attitudes towards science The second section focuses on teachers and teaching It discusses some more innovative teaching approaches adopted in the region including the use of group work inquiry based instruction developing scientific literacy and the use of questions and analogies The third section reports on initiatives related to assessments and curriculum reform including initiatives associated with school based assessment formative assessment strategies and teacher support

accompanying curriculum reform The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781315717678> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
