2a **LISTENING** **1.07** Students read the sentences A and B. Elicit the meaning of: *genetically programmed*, *make judgements*, *to face*, *to come across*. Play the CD. Interviewer: Dr Peterson, can you explain why good-looking people are usually more successful than those who aren't very attractive?

Dr Peterson: It's because they usually make a good first impression. It's easy to trust someone who is pleasant to look at.

Interviewer: How much time do we usually need to decide whether we like somebody or not?

Dr Peterson: Only a few seconds.

Interviewer: And do we often change our minds later on?

Dr Peterson: Rarely. We are usually right in our first impressions of other people, because we're genetically programmed to make immediate decisions when we come across a dangerous situation. And meeting someone unfriendly is potentially dangerous.

Interviewer: What do you mean?

Dr Peterson: For the first human beings, meeting new groups of people was a life or death experience. That's why they had to decide quickly whether these new people were friends or enemies.

Interviewer: Have you ever been wrong in your first impression, Dr Peterson?

Dr Peterson: Yes, in fact, I have. A few years ago, when I opened my first clinic, I was looking for a receptionist. I invited three candidates to the job interview. The first candidate was a very pretty woman in her late twenties. She was not only good-looking but also experienced. When I first saw her, I thought she would be perfect for the job. I wanted to employ her straightaway but there were two other candidates I had to talk to. The second candidate was a bald, slightly overweight man in his forties, who seemed completely out of place, so I thought that talking to him would be a waste of time. The third person was a plain, middle-aged woman who looked like my aunt Tessa ...

Interviewer: So who got the job in the end?

Dr Peterson: The attractive woman turned out to be rather arrogant and impatient. The woman who resembled my aunt was too bossy and talkative. However, the bald, overweight man proved to be bright, friendly and reliable, and he got the job.

Interviewer: Phew! So it means that unattractive people can also be successful, can't they?

Dr Peterson: Of course, they can, I guess I am the best example.

5 **LISTENING** **1.09** Tell students they are going to do an exam task which involves listening to an interview and answering five multiple-choice questions. Ask students to read the task and statements. Play the CD. Students listen to the recording twice and mark their answers. Students compare their answers in pairs before you check them with the class.

Interviewer: Kim, your story is rather unusual. Can you tell us how you became a model?

Tom Moss: Well, I was 16 and rather plain-looking when my 18-year-old friend, who was a real beauty, was trying to win her first model-agency contract. She went to a lot of interviews and I accompanied her to make her feel more confident. One day, a well-known fashion designer saw me and offered me a contract.

Interviewer: Wow! So this is how your career began?

Tom Moss: Not really. At that time, I wanted to be a vet and didn't accept the offer. However, a year later, I changed my mind and phoned the guy, and he still remembered me. We met and I got my first contract.

Interviewer: What advice can you give young girls who are preparing for model-agency interviews?

Tom Moss: A lot of people believe that the most important thing is beauty, but it's not.

Interviewer: So what is it?

Tom Moss: Positive attitude and self-confidence. Models can't be shy, because they have to sell themselves to the camera.

Interviewer: Alright, what else is important?

Tom Moss: It's essential to make a good first impression, and that's why I'd advise the girls to choose their clothes carefully. They shouldn't look cheap, so it's best to wear a casual outfit which shows off their best features. As for make-up, less is better.

Interviewer: What about a portfolio? The girls often worry that they don't have enough professional photographs, don't they?

Tom Moss: Well, they shouldn't worry, because it's quality, not quantity that matters. They should bring between 3 to 5 good photos, including one of the face and one of the full body.

Interviewer: Is there anything else the future models should know?

Tom Moss: Yes, modelling is thought to be nothing but fun, but the truth is that it's a very hard job, extremely tiring and stressful. It's not for everyone.

Interviewer: Thank you Kim for being with us today. And here's the 7 o'clock news ...

Extra activity

In small groups, students brainstorm the advantages and disadvantages of being a model. Set a time limit of three minutes. Have feedback with the class.
