N6 Previous Question Paper N Memo:

An Inconvenient Genocide Geoffrey Robertson, 2014-10-16 The most controversial question that is still being asked about the First World War was there an Armenian genocide will come to a head on 24 April 2015 when Armenians worldwide will commemorate its centenary and Turkey will deny that it took place claiming that the deaths of over half of the Armenian race were justified This has become a vital international issue Twenty national parliaments in democratic countries have voted to recognise the genocide but Britain and the USA continue to equivocate for fear of alienating their NATO ally Geoffrey Robertson QC condemns this hypocrisy and in *An Inconvenient Genocide* he proves beyond reasonable doubt that the horrific events in the Ottoman Empire in 1915 constitute the crime against humanity that is today known as genocide He explains how democracies can deal with genocide denial without infringing free speech and makes a major contribution to understanding and preventing this worst of all crimes His renowned powers of advocacy are on full display as he condemns all those from Sri Lanka to the Sudan from Old Anatolia to modern Syria and Iraq who try to justify the mass murder of children and civilians in the name of military necessity or religious fervour

Research Methods in Sports Coaching Lee Nelson, Ryan Groom, Paul Potrac, 2014-03-26 *Research Methods in Sports Coaching* is a key resource for any student researcher or practitioner wishing to undertake research into sports coaching It takes the reader through each phase of the research process from identifying valuable research questions to data collection and analyses to the presentation and dissemination of research findings It is the only book to focus on the particular challenges and techniques of sports coaching research with each chapter including examples cases and scenarios from the real world of sports coaching The book introduces and explores important philosophical theoretical and practical considerations in conducting coaching research including contextual discussions about why it is important to do sports coaching research how to judge the quality of coaching research and how sports coaching research might meet the needs of coaching practitioners Written by a team of leading international scholars and researchers from the UK US Canada and Australia and bridging the gap between theory and practice this book is an essential course text for any research methods course taken as part of a degree programme in sports coaching or coach education
