ESSENTIAL READINGS IN COMPARATIVE POLITICS. PATRICK H. AND RONALD ROGOWSKI. O'NEIL, 2022 **The HISOFE Dictionary of Midnight Politics** Fossungu, Peter Ateh-Afac, 2014-12-01 Building on Fossungu's earlier works and essentially providing Africa with original critical and multi level analyses of the trio of globalization democracy and national determination this book theorizes that African states have to unite in order to have any impact in the global economy Using the failure of the Cameroon Goodwill Association of Montreal CGAM as a case study the book urges Africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy that is the science of straightforwardness necessitating the fearless looking at truth straight in the eye The questions of the book are many but do all boil down to whether or not Africans fear the truth and do not therefore do politics It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example Man I think you've totally gotten it wrong this time Such comportment defines politickerization or negative competition While attempting some possible responses to the numerous queries it raises this book basically proffers the science of Four Eyesism as a discipline that all African schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities This book is rich in Fossungu's dazzling capacity to invent define and use a multitude of new terminological constructs informed by African experiences The Challenge of Politics Douglas W. Simon, Joseph Romance, 2022-01-04 The Challenge of Politics balances classic political theory with contemporary politics to help students understand the fundamental questions of political science The authors relate insights of classic political thinkers both to their modern counterparts and to the political dynamics of American comparative and international affairs Essential Readings in Comparative Politics Patrick H. O'Neil, Ronald Rogowski, 2004-01 **Global Networking, Communication and Culture: Conflict or Convergence?** Halit Ünver, 2018-03-19 Pursuing an interdisciplinary approach this book offers detailed insights into the empirical relationships between overall social key figures of states and cultures in the fields of information and communication technology ICT digital divide inequality the economy education and religion Its goal is to bridge the cultural gap between computer scientists engineers economists social and political scientists by providing a mutual understanding of the essential challenges posed and opportunities offered by a global information and knowledge society In a sense the historically unprecedented technical advances in the field of ICT are shaping humanity at different levels and forming a hybrid intelligent human technology system a so called global superorganism The main innovation is the combined study of digitization and globalization in the context of growing social inequalities collapse and sustainable development and how a convergence towards a kind of global culture could take place Accordingly the book discusses the spread of ICT Internet Governance the balance between the central concentration of power and the extent of decentralized power distribution the inclusion or exclusion of people and

states in global communication processes and the capacity for global empathy or culture The Challenge of Politics Neal Riemer, Douglas W. Simon, Joseph Romance, 2015-12-17 The Challenge of Politics introduces students to the fundamental questions of political science With a distinctive normative approach that portrays politics as a potentially humanizing enterprise authors Neal Riemer Douglas W Simon and Joseph Romance equip readers to recognize major forms of government evaluate research findings and understand how policy issues directly affect people's lives This comprehensive text balances classic and contemporary political theory with current events and empirical study The Fifth Edition is fully revised to reflect recent national and international developments including a new chapter on American Politics and Government **Essential Readings in Comparative Politics, Second Edition** Patrick H. O'Neil, 2007-02-01 **Africans and Negative Competition in Canadian Factories** Ateh-Afac Fossungu, 2015-02-02 According to Fossungu we need healthy competition for progress Competition that is not geared toward progress is negative competition No competition or the absence of self help is negative competition With factories competing healthily consumers have a variety of quality goods and services from which to choose The entire community benefits when people in any grouping are competing positively thus making the rules of competition graphical The central focus of this book is the extent to which Canadian regulations apply without discrimination to all of Canada and to everyone individuals and corporations alike A swift answer is affirmative But is that really it The book is also about voluntary slavery which is worse than forced enslavement Drawing on Ignorance Theory the book argues that the worst thing that can happen to anyone is to be ignorant of one's ignorance He who does not know what he does not know will never know Voluntary African slaves generally employ One Has No Choice On na pas le choix to cloak their having chosen not to secure their rights Fossungu demonstrates why he considers this an escapist way of shying away from doing the normal thing thus giving the dictator or oppressor reason to dictate and oppress with impunity This is Fossungu at his provocative and controversial best **Challenge of Politics, 4th Edition** Neal Riemer, Douglas W. Simon, Joseph Romance, 2013-02-15 So often political science is introduced to students as a segmented field The Challenge of Politics instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riemer Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people's lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a

potentially humanizing enterprise this new edition of Challenge has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout Essential Readings in Canadian Constitutional Politics Peter H. Russell, Christian Leuprecht, 2011-01-01 Essential Readings in Canadian Constitutional Politics introduces students scholars and practitioners to classic authors and writings on the principles of the Canadian Constitution as well as to select contemporary material To complement rather than duplicate the state of the field it deals with the Canadian Charter of Rights and Freedoms and with Canadian mega constitutional politics in passing only focusing instead on institutions federalism intergovernmental relations bilingualism and binationalism the judiciary minority rights and constitutional renewal Many of the selections reverberate well beyond Canada s borders making this volume an unrivalled resource for anyone interested in constitutional governance and democratic politics in diverse societies
