Psychology Library Editions: History of Psychology Various, 2021-08-19 Originally published between 1928 and 1987 the volumes in this set provide an interesting look back at how psychology has developed as a discipline and some of the problems it has encountered along the way It includes volumes focusing on the history of specific fields such as developmental and experimental psychology as well as examining the roots of psychological theory as a whole and how it has informed many of the fields of psychology we know today *A History of Modern Psychology* Per Saugstad, 2018-11-08 This textbook presents an engaging and global history of psychological science from the birth of the field to the present

Choreomania Kéline Gotman, 2018 When political protest is read as epidemic madness religious ecstasy as nervous disease and angular dance moves as dark and uncouth the disorder being described is choreomania At once a catchall term to denote spontaneous gestures and the unruly movements of crowds choreomania emerged in the nineteenth century at a time of heightened class conflict nationalist policy and colonial rule In this book author Kéline Gotman examines these choreographies of unrest rethinking the modern formation of the choreomania concept as it moved across scientific and social scientific disciplines Reading archives describing dramatic misformations of bodies and body politics she shows how prejudices against expressivity unravel in turn revealing widespread anxieties about demonstrative agitation This history of the fitful body complements stories of nineteenth century discipline and regimentation As she notes constraints on movement imply constraints on political power and agency In each chapter Gotman confronts the many ways choreomania works as an extension of discourses shaping colonialist orientalism which alternately depict riotous bodies as dangerously infected others and as curious bacchanalian remains Through her research Gotman also shows how beneath the radar of this colonial discourse men and women gathered together to repossess on their terms the gestures of social revolt **Rewriting the**

History of Madness Arthur Still, Irving Velody, 2012-10-02 Michel Foucault has had an extraordinary impact on writers in the human sciences since his first book *Madness and Civilization* appeared in English This title assesses the reactions to *Madness and Civilization* **The Early Public Lunatic Institutions of England Part I** Robert J. Wycherley, 2017-12-20 In the published literature of madness and its institutional management the earliest English institutions for the mad have

tended to be treated as part of a bad old days from which progress has been painfully made to modern knowledge and humanitarian treatment of mental illness This book takes issue with this simplistic account and re-examines these early institutions using their own records It suggests that the institutional governors while somewhat distanced from day to day institutional management were relatively well intentioned and that the institutions were far more complex in their organisation and functioning than has previously been reported **The Evolution of Forensic Psychiatry** Dr Robert

Sadoff, 2015-06-15 Dr Robert Sadoff's *The Evolution of Forensic Psychiatry* is extraordinarily unique in that it is not intended to be a textbook or a guide to forensic psychiatry Instead this book is a fascinating mix of historical beginnings current

developments representative subspecialties of psychiatry and several allied disciplines and their impact on forensic psychiatry Furthermore it also includes neuroscientific research and how it translates to civic and criminal case work Judges attorneys law professors and a police scientist all weigh in on the influence of the interdisciplinary research these forensic scientists have had on the justice system Featuring case examples and research conducted by the professionals who have had the greatest influence on the growth of the field of forensic psychiatry they lead the discussion on the various aspects and issues of the discipline s impact on the criminal justice system Dr Sadoff and his team have set out to improve the phases of criminal procedures as they impact our community at large

Critical And Effective Histories Mitchell Dean,2002-11
