Hogg's Weekly Instructor ,1851 *Supplement to The Comprehensive Commentary* William Jenks,1861 *Comparative Religion* J. Estlin Carpenter,2013 *Comparative Religion* The study of Comparative Religion assumes that religion is already in existence It deals with actual usages which it places side by side to see what light they can throw upon each other It leaves the task of formulating definitions to philosophy It is not concerned with origins and does not project itself into the prehistoric past where conjecture takes the place of evidence An old miracle play directed Adam to pass across the stage going to be created Whether religion first appeared in the cultus of the dead or only entered the field after the collapse of a reign of magic which had ceased to satisfy man's demands for help or was born of dread and desired to keep its gods at a distance only remotely affects the process of discovering and examining the resemblances of its forms and interpreting the forces without and within which have produced them The sphere of speculation has its own attractions but in this little book an attempt will be made to keep to facts Three hundred years ago Edward Herbert an Oxford scholar who played many parts and played them well in deep revolt against the ecclesiastical doctrine that all the world outside the pale of the Church was doomed to eternal damnation devoted himself to the study of comparative religion With the materials which the classics afforded him he examined the recorded facts among the Greeks and Romans the Carthaginians and Arabs the Phrygians the Persians the Assyrians The whole fabric of human experience was built up he argued on certain common knowledges or notions which could be distinguished by specific marks such as priority independence universality certainty necessity for man's well being and immediacy Here were the bases of law in relation to social order and of religion in relation to the Powers

above man These principles in religion were five that there is one supreme God that he ought to be worshipped that virtue and piety are the chief parts of divine worship that we ought to be sorry for our sins and repent of them that divine goodness doth dispense rewards and punishments both in this life and after it These truths had been implanted by the Creator in the mind of man and their subsequent corruption produced the idolatries of antiquity *Ireland's Disease* Philippe Daryl, 2023-04-06 *Ireland's Disease* is a non fiction book written by Philippe Daryl that examines the political and economic situation in Ireland during the late 20th century The book explores the many factors that contributed to the country's economic stagnation and political unrest including the impact of colonialism and sectarian conflict Daryl argues that the Irish people have been hindered by a disease of poverty corruption and social inequality which has prevented them from achieving their full potential He explores the history of Ireland from its ancient Celtic roots to its modern day struggles with unemployment emigration and political unrest The book also discusses the role of the Catholic Church in Irish society as well as the impact of the Troubles a period of conflict and violence in Northern Ireland on the wider region Daryl argues that these factors along with a lack of investment and infrastructure have contributed to Ireland's ongoing economic and social problems Despite its bleak analysis *Ireland's Disease* also offers some hope for the future Daryl suggests that Ireland has the potential to overcome its challenges and become a prosperous and united nation but that this will require significant changes in policy leadership and mindset Overall the book provides a thought provoking and insightful analysis of Ireland's history politics and culture **The Sunday-school Times**, 1887 **Symbolism** Steven Olderr, 2012-03-19 The use of symbolism is an art not a science Different people use symbols in a variety of ways and each symbol can have diverse meanings even within the same culture Not surprisingly determining the meaning of symbols can be difficult This valuable reference defines the general symbolism of more than 15 000 terms from ancient to modern as well as specialized meanings in mythology religion art literature folklore flower language astrology heraldry numerology and cultures the world over From 0 to Zu each entry catalogs all possible connotations listed by culture when appropriate creating the most comprehensive symbolism dictionary available **The Athenaeum**, 1838 *The Comprehensive Commentary on the Holy Bible* William Jenks, 1838 **Portland Transcript**, 1850 **The Architect**, 1880 **The Art Journal**, 1859 Vol for 1867 includes Illustrated catalogue of the Paris Universal Exhibition **The Young Ladies' Journal**, 1867 North-western Christian Advocate, 1898 **Architect**, 1880 Waverley Magazine, 1856 *Athenaeum and Literary Chronicle*, 1838
