

SHI'S RESPONSE TO HIV / AIDS IN THE WORKPLACE *

1. BASIC PRINCIPLES

- 1.1. The following outlines the Association policy and procedures for interacting with employees who have been medically diagnosed with or who are suspected of being HIV positive or having developed AIDS (Acquired Immune Deficiency Syndrome).
- 1.2. The HIV / AIDS policy has several objectives:
 - To reassure employees that HIV and AIDS are not spread through casual contact during normal work practices and to reduce unrealistic fears about contracting HIV at work;
 - To protect an employee's legal right to work if s / he is diagnosed with HIV or AIDS;
 - To provide guidelines for situations where HIV / AIDS infection is suspected.
- 1.3. In general, our policy is to encourage sensitivity to and understanding for employees affected or infected with HIV or AIDS. We are committed to maintaining a healthy work environment by protecting the physical and emotional health and well-being of all employees. We are committed to providing employment for people with physical disabilities who are able to work. Thus HIV / AIDS policy is a direct outgrowth of these commitments. It provides guidelines for situations when questions about HIV and AIDS arise.

2. RECRUITMENT AND EDUCATION

- 2.1. When recruiting and hiring new employees, the SHI will not require applicants to be tested for HIV or any other life-threatening condition. The only criterion to use is "suitability to fulfil the job requirements".
- 2.2. The SHI will provide HIV / AIDS education materials and training sessions to all employees, which will include communicating the contents of this policy and its general principles of fairness, sensitivity, and non-discrimination. Training sessions will also provide a forum for employees to have their questions and concerns answered in a safe environment.
- 2.3. Condoms and printed information about the importance of using them will be provided in all washrooms. Every First Aid Box will contain disposable gloves for use by the First Aider when dealing with cuts and abrasions so that they cannot be infected. Employees providing assistance should wash their hands thoroughly with disinfectant, soap and water afterwards and destroy the gloves.
- 2.4. The SHI will encourage Voluntary Counselling and testing (VCT). Employees are under no obligation to disclose their HIV status to the SHI.

RESPONSE TO DISCLOSURE

- 3.1. If and when an employee discloses her / his HIV positive status or illness as a result of

* Note that the SHI should also develop an HIV / AIDS policy about how it deals with its residents.

HIV, Aids, and the Law Donald T. Dickson, Although morbidity among HIV AIDS victims has decreased the rate of new infections has remained steady for several years substantially increasing the likelihood that this epidemic will continue and expand as a concern for social workers and their clientele both of whom will need to be kept informed of the complex laws governing the milieu and the consequences of the disease This is certainly the case with its spread throughout Asia and Africa In this new work the author draws upon statutes and court decisions from across the United States to provide a comprehensive and current picture of the many facets of HIV AIDS law including health policy confidentiality privacy bioethics the workplace and criminal law and corrections The volume of legal medical social science and popular literature pertaining to HIV AIDS that has been published over the past two decades is staggering Hence any addition to this collection needs some justification What Dickson offers is different from what has preceded Rather than one more contribution to the extensive legal or social science literature this book attempts to integrate the perspectives from two fields law and social work The hope is that this will give social workers practitioners and teachers a better understanding of one of the major issues that may face them in their work with patients and clients every day To date although there is extensive HIV and AIDS related literature in social work and the social sciences it is primarily focused on social work practice issues Where law has been introduced in these works it often is narrow in focus and given the rapid changes in the field no longer up to date This book does not purport to discuss all legal issues in all jurisdictions relating to HIV AIDS but rather to choose selectively those that have particular relevance for social work and social policy The author has placed reliance on those published medical works cited with approval in the legal and social science literature This is a seminal work on the relationship of law medicine and ethics Donald T Dickson is professor in the School of Social Work at Rutgers The State University of New Jersey in New Brunswick
