### Congratulations!

If you have been looking for a way to put the FUN back into your Sunday flying, you have just found it with the Uproar 60. The Uproar 60 is a nimble hot-dogger that assembles fast and is easy on the budget. The Uproar 60 does not require any special building or flying skill - just traditional building methods and a little tail-dragger time.

With its oversized control surfaces it turns, loops and rolls in the blink of an eye. But the thick airfoil and light wing loading allow the plane to slow way down for gentle spot landings. If equipped with an engine like the O.S. .60 FP, it's possible to be airborne in a matter of feet, zip through three rolls, and loop back for a landing before most of your buddies are off the ground. With an O.S. .91 FX, you can make your Uproar 60 jump off the ground and go straight up out of sight, then shut the engine off and spin it down, do two loops, a couple more rolls and land at your feet. What more can we say? The Uproar 60 is the most flying fun you can buy, regardless of the cost.
