Robert Louis Stevenson, Literary Networks and Transatlantic Publishing in the 1890s Glenda Norquay, 2020-01-31 Robert Louis Stevenson *Literary Networks and Transatlantic Publishing in the 1890s* investigates Stevenson and the geographies of his literary networks during the last years of his life and after his death. It profiles a series of figures who worked with Stevenson, negotiated his publications on both sides of the Atlantic, wrote for him or were inspired by him. Using archival material, correspondence, fiction, and biographies, it moves across these literary networks. It deploys the concept of literary prosthetics to frame its analysis of gatekeepers, tastemakers, agents, collaborators, and authorial surrogates in the transatlantic production of Stevenson's writing. Case studies of understudied individuals and broader consideration of the networks they represent contribute to knowledge of transatlantic publishing in the 1890s, understanding of transatlantic culture, Stevenson studies, current interest in the workings of literary communities, and in nineteenth-century mobility.

**Historical Memoranda**, 1897 **Six Historic Homesteads** Imogen B. Oakley, 2016-11-11 Our colonial ancestors knew how to build houses as well as constitutions. It may even be that they built the one as enduringly as the other, for many of their mansions still stand firm in joist and beam, having required in nearly two centuries no more serious repairs than shingles and paint. As the Constitution did not spring a magic structure fresh from the minds of its builders but was a welding together of ideas as old as the Magna Carta, so the style of architecture known as Colonial was not a new creation but an adaptation of the Georgian to new material and new social conditions. While there were no architects among our early ancestors, there were master builders who had served apprenticeship to the creators of the manor houses of Georgian England or of the small chateaux of France. Accustomed to work lavishly in stone and brick, these master builders adapted their methods to wood and unconsciously developed the style we know as Colonial. They kept the type pure, whether they applied it to the mansion of the East Indian merchants of New England or to the hospitable home of the owners of the plantations of Virginia and the Carolinas; but in detail they yielded to climate and personality. In this volume, Imogen Oakley meticulously examines the historical climate and the personalities that influenced the construction of six examples of colonial architecture: three in New England and one each in New York, Pennsylvania, and Maryland. The Moffatt Ladd House, Portsmouth, New Hampshire; The Quincy Mansion, Quincy, Massachusetts; The Webb House, Wethersfield, Connecticut; The Jumel House, New York, New York; Stenton, Philadelphia, Pennsylvania; Mount Clare, Baltimore, Maryland. By relating the character of the homesteads as they stand today to the circumstances under which they were built and the personalities who

built and occupied them the author illuminates these monuments of our American past and demonstrates the relationship of their design to their function In addition she traces the history of these homes and shows how it happened that they still stand today their interior decor completely preserved in every detail With the aid of over twenty photographs the reader is able to gain an intimate view of many of the magnificent rooms that grace these famous old mansions This volume represents a valuable and entertaining contribution to American colonial history and the study of an architectural style that has withstood the vicissitudes of time and taste It will also prove of great interest to the antique enthusiast who will be able to see many of the finest examples of colonial interior design in their original setting and thus gain a picture of a style of living that reflects the unique personality of a hardy and practical society and which compares favorably with so much of what has grown up around and threatened to displace it
