Writing Home Eli Goldblatt, 2012-04-12 In this engrossing memoir poet and literacy scholar Eli Goldblatt shares the intimate ways reading and writing influenced the first thirty years of his life in the classroom but mostly outside it Writing Home A Literacy Autobiography traces Goldblatt s search for home and his growing recognition that only through his writing life can he fully contextualize the world he inhabits Goldblatt connects his educational journey as a poet and a teacher to his conception of literacy and assesses his intellectual emotional and political development through undergraduate and postgraduate experiences alongside the social imperatives of the era He explores his decision to leave medical school after he realized that he could not compartmentalize work and creative life or follow in his surgeon father s footsteps A brief first marriage rearranged his understanding of gender and sexuality and a job teaching in an innercity school initiated him into racial politics Literacy became a dramatic social reality when he witnessed the start of the national literacy campaign in postrevolutionary Nicaragua and spent two months finding his bearings while writing poetry in Mexico City Goldblatt presents a thoughtful and exquisitely crafted narrative of his life to illustrate that literacy exists at the intersection of individual and social life and is practiced in relationship to others While the concept of literacy autobiography is a common assignment in undergraduate and graduate writing courses few books model the exercise Writing Home helps fill that void and with Goldblatt s emphasis on out of school literacy fosters an understanding of literacy as a social practice

My Way! Colonel Augie Casado, 2018-04-13 My Way is a compilation of 365 daily e mails Colonel Casado sent his sons Ben and Alex He had set a goal of sending them a daily e mail for 365 days and after about a month his wife asked him to stop sending them because the boys weren t reading them He asked his youngest son Alex if he wanted him to stop and Alex said no That s when he knew he was on to something Looking for a good way to communicate with his boys in our high speed super busy digital world he thought a daily e mail might be a great way to at least let them know he was thinking of them and at best share some helpful insights and experiences After thirty six plus years of leadership and management experience as a group and squadron commander in the military and a senior leader in the civilian world the daily passages centered on those things Colonel Casado knew best leadership motivation goal setting etc My Way is based on his personal values military and civilian leadership experience and a desire to help develop current and future leaders My Way is Colonel Casado s first book but hopefully not his last After a while it became apparent that My Way could help others and thus began the journey of turning the passages into a book After achieving the 365 day goal he found he had over 64 000 words on paper My Way is a fun and very diverse compilation of passages on a variety of issues falling into the realm of self help leadership management

The Best Book On Elite Admissions (Former Stanford Admissions Officer's Plan For Select College Admissions) Erinn Andrews,2011-11-17

ABOUT THE BOOK Applying to college is likely the most stressful and important moment in a teenager s academic life Pressure from friends family teachers and oneself add up to make this an overwhelming process to go through especially for students applying to the nation s most selective schools One major reason for this stress is the uncertainty of the application process Often the students who apply to top schools are used to feeling in control of their lives and planning their future but because there are no sure admittances in elite admissions the feeling of helplessness can be overwhelming There are a number of resources available to students who wish to maximize their chances of admission however I as a former admission officer at a selective university feel that many are misleading In some cases the advice given is very specific to one school which isn t useful for the majority of students or it s too vague And in some other cases students try to compare their statistics with the statistics of other seemingly similar students to gauge their chances of admission perhaps the worst resource of all MEET THE AUTHOR Erinn Andrews is the former Assistant Director of Undergraduate Admissions at Stanford University She read and evaluated thousands of applications from the US as well as more than 70 countries around the world and through that she has developed a unique perspective on what it takes to get into the nation s elite colleges She completed an M A in Education at Stanford University s School of Education in the Policy Organization and Leadership Studies Program She also earned a B A in History with Honors at Stanford She now works with students to help them uncover their intellectual and personal interests and present the best version of themselves in the elite admissions process EXCERPT FROM THE BOOK The purpose of the application in selective admissions is to understand the context from which the applicant is coming In order to decide which students to admit when admit rates are so low Once the context has been established then the admission officer tries to find out if the student has taken advantage of the opportunities available to him and has either a made a lasting impact in his community in some way or b has the potential to make a lasting impact in his future community college and beyond Despite popular belief every application is actually read in its entirety by an admission officer in the selective admissions process
