

Installing Your New Dishwasher

Leave These Instructions with Owner

1 Shipping Base Removal

- Open door by lifting latch located under handle (center top of control panel). Remove accessory package and packing materials.
- Carefully lay dishwasher on its back resting on thickness of corner post. Two other corner posts should be placed under the lower edge of the cabinet to raise the shipping base off the floor to facilitate removal of the shipping base.
- Remove shipping base and discard. Remove cables from accessory bag. Press cables into holes of frame until securely locked, place dishwasher upright.

2 Installation

The dishwasher accessory package contains a faucet adapter, gasket and ventor adapter for the faucet coupler. (See Figure B.)

- Uncover and remove existing aerator or strainer from sink faucet.
 - If faucet has proper internal threads, it will not be necessary to use the adapter and plug based parts. Carefully remove the cardboard cap from the aerator assembly, contents are under pressure due to internal spring. Screw aerator assembly onto faucet and tighten securely.
 - If faucet has proper internal threads, install the gasket and adapter ring, tighten securely and install ventor assembly.
 - If no threads are provided, or if threads do not match the faucet for the existing ring, or ceramic cartridge assemblies may be required for retaining to a pipe (copper or brass) or plumber. Adapter can be used if it will fit almost all types of faucets.
- Move dishwasher into position, remove coupler from receptacle and press down on thumb release. Lift coupler up onto faucet adapter and remove pressure from the thumb release to hold coupler firmly in place. (See Figure C.)
- Open hot water faucet fully. Water should not leak from any of the rings.
- Plug power cord into electrical outlet. (See Electrical Wiring and Grounding Instructions.)

3 Checking Installation

- Check dishwasher as follows for proper operation and leaks. Set timer dial to "Signal, New Wash," "Short" or "Wash & Hold" selection. Close door until it latches. This will start the dishwasher operation.
- For microprocessor models: Close door until it latches. Select "Wash Only." Then press START. This will start the dishwasher operation.
- Allow dishwasher to fill, wash, and drain. Be sure dishwasher is operating properly. Check operation of the dishwasher according to the User's Guide.
- Turn faucet off and relieve pressure on hose by depressing relief button on the side of faucet coupler. Depress thumb released lever and remove coupler. (See Figure C.)

Electrical Wiring

Consumer dishwashers are designed for operation on 120V-60Hz approved electrical service, protected by a 15-amp fuse or comparable circuit breaker.

Warning: Hose that attaches to a sink spray nozzle can burst if it is installed on the same water line as the dishwasher. If the sink has a spray nozzle attachment, it is recommended that the hose be removed and the hole plugged.

Coupler Connection

Grounding Instructions

Warning: This appliance must be grounded in the event of a malfunction or breakdown, grounding will reduce the risk of electric shock by providing a path of least resistance for electric current. This appliance is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriately rated and grounded and grounded in accordance with all local codes and ordinances.

Warning: Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service representative if you are in doubt whether the appliance is properly grounded. Do not modify the plug provided with the appliance. If it will not fit the outlet, have a proper outlet installed by a qualified electrician. **DO NOT CUT OR REMOVE THE THIRD-GROUNDING PRONG FROM THE POWER CORD PLUG.**

For Peak Performance:

- ✓ Set your water heater to below 120°-130°F water. If water is below 130°F, select water heating options if available.
- ✓ Use the recommended amount of detergent based on water hardness and soil level.
- ✓ Use a dryers agent to improve drying results and minimize water spotting.

- ✓ Load items with soiled surfaces facing the center.
- ✓ Load items so they do not block the upper and lower wash arms or corner wash force.
- ✓ Do not place glasses over wash arms. This interferes with wash action.
