

DOOR REVERSAL

Clothes washer door swing direction can be changed by following this procedure.

1. Swing door fully open and support it. Remove the center screw from the hinges and the hinge covers. A total of four screws are removed.
2. Lift the door upward and then pull outward. The door and its hinges should disengage from the cabinet. If the hinges seem to bind, press the plastic area near the hinge toward the hinge.
3. Remove the hinge covers by pulling upward and then outward, just like the hinges.
4. Remove the screws that mount the hinges to the door. A total of four screws are removed.
5. Transfer the four color matched screws that attach the inner and outer door together to the other side of the door.
6. Attach the hinges to the door. Be sure that hinge is oriented so it will fit into the slots on the cabinet.
7. Remount the door onto the cabinet. Secure using the original mounting screw.
8. Mount the hinge covers to the opposite side of the door opening with their center screws. The hinge covers are not symmetrical. There is a chamfer to accommodate the mounting screw.
