The Guitar Amp Handbook Dave Hunter,2023-09-14 The *Guitar Amp Handbook Understanding Tube Amplifiers and Getting Great Sounds Updated Edition* brings fresh information to the table to help guitarists understand everything about what makes their amps tick and how to use them to sound better than ever It builds on the popular original edition of the book first published in 2005 Central to the book s success is the way it walks musicians through the significance of each crucial circuit stage and component of a great number of classic and modern tube amp designs helping guitarists get the most from the amps they already own or choose new amps that are best suited to their needs The *Guitar Amp Handbook* reveals many of the tips and tricks used by today s top designers and builders and it debunks the hype used by the marketing departments at large manufacturers keen on selling specific amps that might not be right for particular players The book is designed to help guitarists understand what really goes on inside tube amps and where the tone comes from This new updated and expanded edition adds further knowledge to the foundation ensuring it continues as the most thorough and authoritative publication on the subject to be found anywhere

Dave Funk's Tube Amp Workbook Dave Funk,2014-05-30 Most musicians would like to understand how their amplifiers work For reason to either get a better tone explain that tone to their serviceman prevent an amplifier from failing on stage perform a quick fix on the job do their own maintenance maybe even start their own repair or custom amp business This book is intended to provide an actual Workbook that can be opened up on your workbench and used to study service or modify tube amps The book is laid out in a cadence of schematic on top with the appropriate layout underneath This allows you to see both drawings at the same time It also means that some pages are intentionally left blank so as to not break the cadence These pages can be used for note taking After all this book is meant to be used Contained in the chapters are reference pages for Jensen Speakers Fender Transformers and Accutronics Reverbs

Starting At Zero Jimi Hendrix,2013-11-05 It took just

four years in the spotlight for Jimi Hendrix to become an international cultural icon The sheer impact and originality of his music and his unique mastery of the guitar placed him forever amongst musical giants But what of the man behind the public image Modest and intensely private by nature Jimi was shrouded in intrigue from the moment he first came into the public eye and the mystery has only grown with time Much has been written about him by experts fans and critics some of it true and some of it not He did however leave his own account of himself locked away like a Chinese puzzle in his many interviews lyrics writings poems diaries and even stage raps Starting at Zero brings all these elements together in narrative form The result is an intimate funny and poetic memoir one that tells for the first time Jimi s own story as only he could tell it
