Semester 1

From surgery to vaccines man has made great strides in the field of medicine

It seems that a new and more terrible disease is touted on the news almost daily

The spread of these scary diseases from bird flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from and how do they fit into a biblical world view

What kind of function did these microbes have before the Fall

Does antibiotic resistance in bacteria prove evolution

How can something so small have such a huge deadly impact on the world around us

Professor Alan Gillen sheds light on these and many other questions in *The Genesis of Germs*

He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view
