The Ugly Vegetables Grace Lin, 1999-07-01 In this charming story about celebrating differences a Chinese American girl wishes for a garden of bright flowers instead of one full of bumpy ugly vegetables The neighbors gardens look so much prettier and so much more inviting to the young gardener than the garden of black purple green vines fuzzy wrinkled leaves prickly stems and a few little yellow flowers that she and her mother grow Nevertheless mother assures her that these are better than flowers Come harvest time everyone agrees as those ugly Chinese vegetables become the tastiest most aromatic soup they have ever known As the neighborhood comes together to share flowers and ugly vegetable soup the young gardener learns that regardless of appearances everything has its own beauty and purpose THE UGLY VEGETABLES springs forth with the bright and cheerful colors of blooming flowers and lumpy vegetables Grace Lin s playful illustrations pour forth with abundant treasures Complete with a guide to the Chinese pronunciation of the vegetables and the recipe for ugly vegetable soup

The Architecture of Error Francesca Hughes, 2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline s needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In *The Architecture of Error* Francesca Hughes argues that behind the architect s acute fetishization of redundant precision lies a special fear of physical error What if we were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament to digitalized fabrication that produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes s analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable

Grammar of Esperanto, the International Language Ivy Kellerman Reed,1910 **A Complete Grammar of Esperanto (illustrated)** IVY KELLERMAN, Illustrated with 10 images This book will be a descriptive grammar of the Esperanto language invented by L L Zamenhof which will be complete and comprehensive in regards to a the grammar of Esperanto as first outlined by Zamenhof in Fundamento de Esperanto and other foundational documents and b Esperanto as it is spoken today by the most committed Esperantists Proposed reforms to the Esperanto language will be discussed if they have serious support from a significant fraction of Esperanto enthusiasts This book was started practically on a dare from the August 2006 issue of Bob s Poetry Magazine in which Robert Happelberg boasted that he could print a complete and comprehensive grammar of Esperanto in just one 6 by 7 inch page While this is obviously wrong it s not too far off the mark When completed this book will require several standard size 8 5 by 11 in the USA pages but will still be much shorter than a complete grammar of a natural language like English or Slovene In view of this goal the number of examples provided for each concept will be kept to a bare minimum Those wishing to build their Esperanto vocabularies are also referred to the Esperanto textbooks It is acceptable in the beginning to word the text in an accessible manner like in a textbook but the goal should be for all the text to be technical with a full command of linguistic jargon The Scottish Farmer ,1924 **The London Corn Circular** ,1911 The Expositor ,1919 *Vietnamese Pronunciation* Nguyen Dang Liem,2019-03-31 This is the first in the PALI Language Text series to deal with a Southeast Asian language The author s approach in this pronunciation guide owes much to the methodology pioneered by Charles Fries A basic assumption of this approach is that in learning a new language the problem is not first of all learning vocabulary but mastery of the sound system Moreover the problems of learning a new sound system vary with the native language of the student This manual is designed specifically for the English speaking student and concentrates on the particular difficulties an English speaking person would have in learning to speak Vietnamese There are no outstanding grammatical differences in the three main Vietnamese dialects but there are some

significant phonological differences The Saigon dialect forms the main core of the lessons here but materials and drills of standard Hanoi Vietnamese have been included in review lessons for recognition purposes skillbook for speech improvement Rebecca Desamito Alcantara,1999 *The Sunday-school Times* ,1887 **New England Journal of Education** ,1897
