The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

A.S.M. Review of Metal Literature American Society for Metals, 1967 *Nixon Volume II* Stephen E. Ambrose, 2014-03-18 Stephen E Ambrose's biography of one of the most complex and puzzling US presidents at the apogee of his career rebounding from defeat to an innovative high risk presidency already sowing the seeds of his ruin Starting with

Nixon's drive to the presidency volume two of Ambrose's major biography of America's 37th president chronicles Nixon's campaigns his ultimate victory in 1962 as well as his first term as President and culminates with the Nixon's reelection on November 7 1972 Nixon was a complex man graced with superb intellect creative knowledgeable about world activities and peerless in his talent for foreign affairs Yet he could also be manipulative quick to anger driven by unseen ambitions cynical about domestic politics and sensitive to criticism Culled from his private papers speeches hand written notes audio recordings of conversations in the Nixon White House and much more Ambrose's account offers insight into the thought patterns and attitudes of the man whose Presidency was marked by the debacles of Watergate and Vietnam yet who also began the process of nuclear disarmament and opened up crucial diplomatic relations with China This is a brilliant and detailed second part to Ambrose's Nixon trilogy *Books in Print* ,1977 Mathematics Year 12 Sharon Kennedy,2013
