Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years The Journal of Education ,1902 *Journal of Education and School World* ,1917 **C and D** ,1892 Educational Times and Journal of the College of Preceptors ,1908 **Learning in Transition** Margaret Elisabeth Perrow,2000 **Reconceptualising education support services in South Africa** Johnnie Hay, Macalane J. Malindi, Thabo Makhalemele, 2022-02-10 Inclusive education has been phased into South Africa since 2001 but relies heavily upon adequate support services to support learners and teachers experiencing barriers to learning and development This book focuses on the different levels of support provided in South African education from School based Support Teams to District based Support Teams through to special and full service schools and how these could be reconceptualised to provide improved support to learners and teachers Current research indicates that inclusive education is being implemented in varied and fragmented forms across the country and the point of departure of this work is that education support services need to be improved and reconceptualised to ensure better support for inclusive education
