Manual of Romance Forensic Linguistics Victoria Guillén-Nieto, Dieter Stein, 2025-06-02 It is evident that published serious science based work in Forensic Linguistics is predominantly written in English and focuses on casework from the English speaking world While the first aspect is understandable given that English serves as an international lingua franca in scientific discourse the second aspect presents a significant limitation for the field Should researchers assume that there is simply less crime in non English speaking areas of the world A more pertinent question might be What cultural disciplinary

legal or legal cultural factors contribute to the lack of research in and on languages other than English In addition to addressing the underrepresentation of Romance languages in scientific publications related to forensic work the chapters in this handbook will also explore the reasons behind this unfortunate situation Designed to engage readers whether they are linguists legal professionals or simply interested individuals and to spark interest in Romance Forensic Linguistics this handbook follows three key objectives First we are committed to providing a comprehensive overview of the casework and research conducted in and on several Romance languages including Peninsular Spanish Catalan Brazilian Portuguese French Canadian French Italian and Romanian Second the chapters in this volume seek to understand why Forensic Linguistics has thrived more in some Romance speaking countries than in others Finally we aim to uncover the reasons for the slower development of Forensic Linguistics in regions where Romance languages are predominantly spoken

A Nexus Approach for Sustainable Development Stephan Hülsmann, Mahesh Jampani, 2020-11-10 This book explores how integrated management of environmental resources via a nexus approach can help in achieving the respective Sustainable Development Goals SDGs It provides conceptual considerations but mainly practical examples on how to implement a nexus approach in cities and multifunctional land use systems to increase resource use efficiency and develop a low carbon economy After sketching out the background and conceptual outline contributions to the book explore key aspects of the nexus implementation Specifically they Demonstrate how to sustainably use organic waste and wastewater for agriculture Explore examples on how to manage multifunctional land use systems including multipurpose reservoirs Highlight the importance of economic incentives for successful nexus implementation and Provide a comprehensive perspective on challenges and opportunities of implementation considering peer to peer learning indigenous knowledge and stakeholder participation The chapters in this book shed a new light on key aspects of the interrelation between SDGs and the nexus approach in resilient cities and multifunctional land use systems and provide specific examples on how to advance sustainable resources management

The State of the World's Forests 2020 Food and Agriculture Organization of the United Nations, United Nations Environment Programme, 2020-05-01 As the United Nations Decade on Biodiversity 2011 2020 comes to a close and countries prepare to adopt a post 2020 global biodiversity framework this edition of The State of the World's Forests SOFO examines the contributions of forests and of the people who use and manage them to the conservation and sustainable use of biodiversity Forests cover just over 30 percent of the global land area yet they provide habitat for the vast majority of the terrestrial plant and animal species known to science Unfortunately forests and the biodiversity they contain continue to be under threat from actions to convert the land to agriculture or unsustainable levels of exploitation much of it illegal The State of the World's Forests 2020 assesses progress to date in meeting global targets and goals related to forest biodiversity and examines the effectiveness of policies actions and approaches in terms of both conservation and sustainable development outcomes A series of case studies provide examples of innovative practices that combine conservation and sustainable use of
