A Summary of the Mānsāra Prasanna Kumar Acharya, 1918 Watching Game of Thrones Martin Barker, Clarissa Smith, Feona Attwood, 2021-03-23 Game of Thrones was an international sensation and has been looked at from many different angles But to date there has been little research into its audiences who they were how they engaged with and responded to it This book presents the findings of a major international research project that garnered more than 10 000 responses to an innovative qualitative quantitative questionnaire Among its findings are a new way of understanding the place and role of favourite characters in audiences responses new insights into the role of fantasy in encouraging thinking about our own world and an account of two combined emotions relish and anguish which structure audiences reactions to controversial elements in the series *An Analysis of Jared M. Diamond's Collapse* Rodolfo Maggio, 2017-07-05 American scholar Jared Diamond deploys his powers of interpretation to great effect in *Collapse How Societies Choose to Fail or Succeed* which seeks to understand the meaning behind the available evidence describing societies that have survived and those that have withered and died Why for example did the Norsemen of Scandinavia who colonized Greenland in the early tenth century not survive while the inhabitants of Highland New Guinea did With the evidence to hand Diamond notes that a society's collapse tends to be preceded by a severe reduction in population and considerable decreases in political economic and social complexity Delving even deeper Diamond isolates five major factors determine the success or failure of human societies in all periods of history environmental degradation which occurs when an ecosystem deteriorates as its resources are exhausted climate change natural or man made hostile neighbors weakened trading partners and access or otherwise to the resources that enable the society to adapt its challenges The breadth of Diamond's research provides the springboard from which to reach these definitions but it inevitably also introduces complications how can evidence produced by specialists in so many different disciplines be compared Diamond's ability to understand the meaning of the evidence at hand and his readiness to seek and supply clarifications of meaning where necessary underpin his achievement and comprise a textbook example of how interpretative skills can provide a framework for strong critical thinking *Bend the Knee or Seize the Throne* Nathan Tong, Michael J. Urick, 2023-06-12 How is power used and abused What are the effects of abuse of power An examination of ethics and motivation along with concepts of justice and cultural awareness feed into a comprehensive dive into manifestations of leadership throughout the Seven Kingdoms *Game of Thrones and the Medieval Art of War* Ken Mondschein, 2017-10-13 George R R Martin's A Song of Ice and Fire novels and HBO's Game of Thrones series depict a medieval world at war But how accurate are they The author an historian and medieval martial arts expert examines in detail how authentically Martin's fictional world reflects the arms and armor fighting techniques and siege warfare of the Middle Ages Along the way he explores the concept of medievalism modern pop culture's idea of the Middle Ages Management Lessons from Game of Thrones Moore, Fiona, 2022-07-01 This intriguing and absorbing book takes a look at aspects of

The Political Effects of Entertainment Media Anthony Gierzynski,2020-07-08 Entertainment media are rife with material that touches on the political The stories with which we entertain ourselves often show us for better or worse that everything can be solved by the rise of an individual hero and that the best way to deal with a bad guy with a gun is a good guy with a gun Our stories portray individuals along the lines of gender racial and ethnic stereotypes offer us villains that are one dimensional characters driven by evil and show us politicians who are almost always corrupt self serving and or incompetent They offer up models for how to deal with oppressive authority and they typically portray worlds that are just where those who do the right thing come out on top Entire entertainment genres with their shared story telling conventions and common plot devices provide lessons and perspectives that are relevant to how the public sees political issues The stories that entertain us show us all these things and more but to what effect Does the pervasive politically relevant content that can be found not just in political entertainment shows like House of Cards but also in entertainment like Game of Thrones that on the surface has nothing to do with modern politics affect people s perspectives on the political world That is the central question of this volume This book discusses the type of content in entertainment media that has the best chance of influencing political beliefs draws from the work of scholars in a number of disciplines in order to forge a theory explaining how and when entertainment media will affect political perspectives and presents a series of empirical studies using experiments and surveys that demonstrate the effect of politically relevant content in shows such as Game of Thrones House of Cards The Daily Show and The Colbert Report in genres such science fiction and through pervasive villain and leader character types
