Dello Buono,2009-01-16 Latin America after the Neoliberal Debacle studies the crippling problems that plague civilian democracies in the region Ximena de la Barra and Richard Dello Buono draw on their extensive first hand knowledge of Latin America to provide a rich analysis of why the needs of the region are too often put second to powerful foreign interests In particular they look at the shortcomings of the neoliberal development model combining a broad historical overview with analysis of critical issues today In a region that displays some of the worst social disparities in the world popular movements have begun to confront the forces of domination Their struggles for social justice have proposed new political agendas that in some cases dovetail with the new generation of progressive leaders fueling important social changes The authors argue that genuine development free of dependency can only be achieved in the context of a more profound democratization and new forms of regional integration This interdisciplinary study will be useful for students scholars and general readers concerned with the past present and

particularly the future of this important region *Africa* Tony Binns, Etienne Nel, Alan Dixon, Kenneth Lynch, 2023-12-08

Africa Diversity and Development introduces and demystifies Africa's diversity and dynamism and considers how its peoples and environments have interacted through time and space. The book examines the background and diversity of Africa's social, cultural, economic, political, and environmental systems, as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent. These include the impact of HIV/AIDS, sources of conflict and post-conflict reconstruction, the state and governance, the nature of African economies in a global context, and future development trajectories. This second edition features new chapters on history and governance, health, separate chapters on rural and urban development, and updated content on all aspects of the continent, particularly aspects of culture and ethnicity. It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed up-to-date case studies and current data. This textbook is a refreshing interdisciplinary text which enhances understanding of the background to Africa's current position and clarifies possible future scenarios. It will be a valuable resource for students taking modules on Africa, African Development, and Geography of Africa, and will also prove useful to students in the wider fields of Geography, Development Studies, Global Studies, Environment and Society, and African Politics.
