

Task 1: Knowledge/Understanding questions

- Expand and simplify the following powers. Give all of the answers in terms of positive exponents.

a) $(3a^2b^3)^7 - 3a^2b^3(3a^2b^3)^2$

$$= (3a^2b^3)^7 - 3a^2b^3(3)$$

$$= 48a^2b^3$$

$$= 48a^2b^3$$

$$b) = \left(\frac{2}{3}\right)3a^2$$

$$= \left(\frac{2 \cdot 3a^2}{3 \cdot 3a^2}\right)$$

$$= \frac{2 \cdot 3a^2}{3 \cdot 3a^2}$$

c) $(-45)(1) + 64^{\frac{1}{2}} + (2^2)(1)$

$$= (-45)(1) + 64^{\frac{1}{2}} + 4$$

$$= \frac{-45}{1} + \frac{1}{4} + \frac{64}{1}$$

$$= \frac{-180}{4} + \frac{1}{4} + \frac{256}{4}$$

$$= \frac{77}{4}$$

$$= 19.25$$

d) $x(2x-3)(2x+1)$

$$= x(2x-3)(2x+1) \text{ add the exponents}$$

$$= x(12x^2 + 12x - 6x - 3)$$

$$= x(12x^2 + 6x - 3)$$

The exponent on x should be 1x+1

e) $\frac{2^{x^2} \sqrt{x-4}}{2^{4x} \sqrt{x+6}}$

$$= x^{-3x(x-7)+7x(x-4)}$$

$$= x^{4x^2 - 4x}$$

- Evaluate $\log_5 625$ using the following methods. Give

- by switching from logarithmic to exponential form

$$x = \log_5 625$$

$$5^x = 625$$

$$x = 4$$

Europe and Extraterritorial Asylum Maarten Den Heijer,2012-03-01 Increasingly European and other Western states have sought to control the movement of refugees outside their borders To do this states have adopted a variety of measures including carrier sanctions interception of migrants at sea posting of immigration officers in foreign countries and external processing of asylum seekers This book focuses on the legal implications of external mechanisms of migration control for the protection of refugees and irregular migrants The book explores how refugee and human rights law has responded to the new measures adopted by states and how states have sought cooperation with other actors in the context of migration control The book defends the thesis that when European states attempt to control the movement of migrants outside their territories they remain responsible under international law

for protecting the rights of refugees as well as their general human rights It also identifies how EU law governs and constrains the various types of pre border migration enforcement employed by EU Member States and examines how unfolding practices of external migration control conform with international law This is a work which will be essential reading for scholars and practitioners of asylum and refugee law throughout Europe and the wider world The book received The Max van der Stoep Human Rights Award 2011 first prize category dissertations and the Erasmianum Study Prize 2011

The United Nations Convention on Jurisdictional Immunities of States and Their Property Roger O'Keefe, Christian J. Tams, Antonios Tzanakopoulos, 2013-03-21 State immunity the idea that a state including its individual organs officials and other emanations may not be proceeded against in the courts of another state in certain instances has long been and remains a source of international controversy Although customary international law no longer recognizes the absolute immunity of states from foreign judicial process the evolution of the contemporary notion of restrictive state immunity over the past fifty years has been an uncoordinated and contested process leading to disputes between states The adoption in 2004 of the United Nations Convention on Jurisdictional Immunities of States and Their Property has significantly contributed to reaching consensus among states on this fundamental question of international law This book provides article by article commentary on the text of the Convention complemented by a small number of cross cutting chapters highlighting general issues beyond the scope of any single provision such as the theoretical underpinnings of state immunity the distinction between immunity from suit and immunity from execution the process leading to the adoption of the Convention and the general understanding that the Convention does not extend to criminal matters It presents a systematic analysis of the Convention taking into account its drafting history relevant state practice including the considerable number of national statutes and judicial decisions on state immunity and any international judicial or arbitral decisions on point Attribution in International Investment Law Csaba Kovács, 2018-08-20 The term attribution refers to the means by which it is ascertained whether the State is involved in a dispute governed by international law The notion of attribution is primarily used to determine if the State is responsible for the wrongful conduct of persons or entities with links to the State In the context of

international investment law the exponentially growing arbitration jurisprudence arising from international investment agreements IIAs especially bilateral investment treaties BITs reflects the extent and risk of attribution determined in investment relationships that often involve State enterprises This book the first in depth study of the uses of attribution in international investment law provides a deeply informed analysis of the treatment of attribution in applicable legal instruments and investment arbitration jurisprudence worldwide The analysis responds to such questions as the following When is a conduct attributable to the State for the purposes of its responsibility under international investment law What legal instruments govern the question of attribution under international investment law In what circumstances is the State the proper party to a contract entered into by a State owned enterprise with an investor protected by an investment treaty How can State policymakers minimise their international law responsibility within the existing framework of attribution in international investment law How can investors maximise their protection within the existing framework of attribution in international investment law Also covered are the procedural treatment of attribution by investment tribunals explication of such broad brush wordings as elements of governmental authority and under the direction or control and the impact of the rise of State owned enterprises as investors Ongoing and future trends in the jurisprudence are also taken into account A one stop reference on the question of attribution in international investment law the analysis extracts identifiable commonalities among instruments and rulings turning them into useful practice tools This book will prove invaluable for practitioners advising States or investors in investment disputes More generally this book will be welcomed by arbitrators in house counsel for companies doing transnational business and international arbitration centres as well as by academics in international arbitration
