Languages Across Boundaries Dik Bakker, Martin Haspelmath, 2013-09-03 This book is dedicated to Anna Siewierska who died far too young in 2011 It contains 15 contributions by 20 linguists who may be counted among the foremost scholars in the field of linguistic typology All of these articles discuss a topic that is prominent in Anna s work whose journal articles and monographs on the passive on word order and on the category of person are standard literature in these respective fields Mindful of Anna s last monograph Person the majority of the contributions in this volume discuss free and bound person forms argument indexing reference tracking systems impersonals and related issues such as suppletion and incompleteness in person paradigms the origin of referential systems dependent versus independent marking and referential hierarchies Other topics are grammatical alignment grammatical voice ditransitives and word order Most of the contributions take a broad typological perspective Others give a more in depth treatment based on data from a specific language notably Spanish Russian Mandinka and Mohawk The book contains a complete bibliography of Anna Siewierska s linguistic production

Language Across Borders Felix Banda, 2002 **Dialects Across Borders** Markku Filppula, Juhani Klemola, Marjatta Palander, Esa Penttilä, 2005-12-21 Nonstandard varieties of languages have recently

become an object of new interest in scholarly research This is very much due to the advances in the methods used in data collection and analysis as well as the emergence of new language theoretical frameworks The articles in this volume stem from the 11th International Conference on Methods in Dialectology Methods XI August 2002 Joensuu The theme for this conference was Dialects across borders The selection of contributions included in this volume demonstrates how various kinds of borders exert major influence on linguistic behaviour all over the world The articles have been grouped according to whether they deal primarily with the linguistic outcomes of political and historical borders between states Part I various kinds of social and regional boundaries including borders in a metaphorical sense i e social barriers and mental or cognitive boundaries Part II and finally boundaries between languages Part III Education Across Borders James Fegan, Malcolm H. Field, 2009-02-21 The Universal Declaration of Human Rights endorsed in 1948 by member states of the United Nations continues to remain very much valid as it provides the solid foundation for most actions and activities that are aimed at guaranteeing the rights of everybody The rights enunciated in the Declaration are comprehensive and two that are relevant to the content of this book are the right to education and the right to learn The right to education and the right to learn are known to have been hotly debated by politicians policy makers and implementers Sometimes the rights in question here have found their way into political parties manifestoes and advocates of the right to education and the right to learn have been quick to bring into judgment politicians who have not lived up to their promises Even at that many member states of the United Nations have taken steps to ensure that access to learning is jealously guarded For education and lifelong learning remain among the primary forces that can guarantee individual community and national development as they had always been from time immemorial Globally there has been ample evidence of efforts made by governments to promote the widening of access to participation in learning activities Even so the literature on the subject of access and participation has not captured sufficiently what has happened across the world in terms of providing access outside national boundaries in the context of globalization and the rapid creation of the knowledge based economies of the 21st century

Journalism Across Boundaries K. Grieves, 2012-11-28 Journalistic activity crosses national borders in creative and sometimes unexpected ways Drawing on many interviews and newsroom observation this book addresses an overlooked but important aspect of international journalism by examining how journalists carry out their daily work at the transnational and regional transborder level **Reading(s) / across / Borders**, 2020-03-23 This collection emphasizes a cross disciplinary approach to the relevance of borders and bordering as a spatial paradigm in Anglophone studies It sets out to provide a critical counter narrative to the 1990s globalization argument of a borderless world by insisting on the significant roles borders play The essays range in subject matter from geography history British and American literature to painting and Reggae music and map out different conceptualisations of the border place line process contact zones etc The volume's cross border narrative serves as a point of communication between the local and the global between Europe and America between

different literary and artistic genres thus challenging the divides of geography and literature between real territorial borders and their fictional counterparts *Milton Across Borders and Media* Islam Issa, Angelica Duran, 2024-02-27 This edited volume explores the combination of cultural phenomena that have established and canonized the work of John Milton in a global context from interlingual translations to representations of Milton's work in verbal media painting stained glass dance opera and symphony *Across Cultures / Across Borders* Paul Depasquale, Renate Eigenbrod, Emma Larocque, 2009-12-23 *Across Cultures Across Borders* is a collection of new critical essays interviews and other writings by twenty five established and emerging Canadian Aboriginal and Native American scholars and creative writers across Turtle Island Together these original works illustrate diverse but interconnecting knowledges and offer powerfully relevant observations on Native literature and culture **Managing Biosecurity Across Borders** Ian Falk, Ruth Wallace, Marthen L. Ndoen, 2011-07-03 Managing biosecurity is everybody's business The book's multi site multi sectoral research contributes to an holistic evidence based strategy for managing plant biosecurity in complex contexts The intent is to provide a starting point for all stakeholders in the biosecurity endeavor policy personnel at all levels of governance planners and regional developers non government organizations community groups and individuals to plan localized strategies that fit national needs and constraints and the way people live their lives In putting forward a strategy we draw on many disciplines and cultural perspectives on a problem that is fundamentally a multidisciplinary and global issue At the same time the contributing researchers remain aware that such a strategy is always subject to local contextual factors and influences indigenous and local knowledge and culture and is regarded as a tool for planning always subject to change *Catholics across Borders* Mark Paul Richard, 2024-02-01 *Catholics across Borders* examines the evolution of a French speaking population in Plattsburgh over a century Contrasting with New England's francophone textile mill centers Plattsburgh featured interethnic cooperation instead of conflict The book explores how international events affected French Catholic identity at the local level drawing from French language newspapers and Catholic archives Transnational Catholic migrants from Canada and France played a significant role in shaping local regional national and international history in Plattsburgh and beyond contributing to the larger narrative of the U S immigrant experience This study provides a historic perspective for understanding the present **Moving (Across) Borders** Gabriele Brandstetter, Holger Hartung, 2017-02-15 As performative and political acts translation intervention and participation are movements that take place across along and between borders Such movements traverse geographic boundaries affect social distinctions and challenge conceptual categorizations while shifting and transforming lines of separation themselves This book brings together choreographers movement practitioners and theorists from various fields and disciplines to reflect upon such dynamics of difference From their individual cultural backgrounds they ask how these movements affect related fields such as corporeality perception self representation and expression **OECD Reviews of Regional Innovation Regions and Innovation Collaborating across Borders** OECD, 2013-11-26

This report examines cross border collaboration on innovation building on case studies of cross border areas that include the following countries Finland Sweden Norway Estonia Denmark Germany Netherlands Belgium United Kingdom and Ireland

Living Together Across Borders Lynnette Arnold,2024 In *Living Together Across Borders* author Lynnette Arnold tells the stories of extended families living stretched between a rural Salvadoran village and the urban locations in the United States where their migrant relatives live In this multi sited ethnography Arnold examines seemingly mundane conversational practices such as sending greetings negotiating remittances and reminiscing together that are central to family life across borders Arnold underscores the consequentiality of these linguistic practices by tracing how they are shaped by and re shape gendered and generational norms of family care as well as how they are tied to Salvadoran histories of migration violence and poverty which are powerfully influenced by U S economic and foreign policy This book demonstrates that these communicative practices bring inequities between the global North and South into family life by continually reproducing distinctions between relatives in El Salvador and those living in the United States Conversely she examines seemingly mundane interactions including greetings remittance negotiations and reminiscing together Although these relational moments of cross border connection are fleeting their impacts endure laying the foundation for the ongoing material and economic provisioning necessary to family survival Through cross border conversations families nurture intergenerational relations that sustain the family and convivencia living together over the years despite ongoing separation *Ideas Across Borders* Gaby Mahlberg,Thomas Munck,2024-02-20 Building on the historical study of cultural translation this volume brings together a range of case studies and fresh approaches to early modern intellectual history by scholars from across Europe reflecting on ideological and political change from c 1600 to 1840 Translations played a crucial role in the transmission of political ideas across linguistic and cultural borders in early modern Europe Yet intellectual historians have been slow to adopt the study of translations as an analytical tool for the understanding of such cultural transfers Recently a number of different approaches to transnational intellectual history have emerged allowing historians of early modern Europe to draw on work not just in translation studies literary studies conceptual history the history of political thought and the history of scholarship but also in the history of print and its significance for cultural transfer Thorough qualitative and quantitative analysis of texts in translation can place them more accurately in time and space This book provides a better understanding of the extent to which ideas crossed linguistic and cultural divides and how they were re shaped in the process Written in an accessible style this volume is aimed at scholars in cognate disciplines as well as at postgraduate students [The Cambridge Handbook of Language Standardization](#) Wendy Ayres-Bennett,John Bellamy,2021-07-22 Language standardization is the process by which conventional forms of a language are established and maintained Bringing together internationally renowned experts this Handbook provides a comprehensive overview of standardization norms and standard languages Chapters are grouped into five thematic areas models and theories of standardization questions of authority and legitimacy

literacy and education borders and boundaries and standardization in Late Modernity Each chapter addresses a specific issue in detail illustrating it with linguistic case studies and taking into account the particular political social and cultural context Showcasing cutting edge research it offers fresh perspectives that go beyond traditional accounts of the standardization of national European languages and affords new insights into minoritized indigenous and stateless languages Surveying a wide range of languages and approaches this Handbook is an essential resource for all those interested in language standards and standard languages

Language Planning in Africa Nkonko Kamwangamalu, Richard Baldauf Jr., Robert Kaplan, 2016-04-08 This volume focuses on language planning in the Cameroon Sudan and Zimbabwe explaining the linguistic diversity historical and political contexts current language situation including language in education planning the role of the media the role of religion and the roles of non indigenous languages The authors are indigenous to the situations described and draw on their experience and extensive fieldwork there The extended case studies contained in this volume draw together the literature on each of the polities to present an overview of the existing research available while also providing new research based information The purpose of this volume is to provide an up to date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise This book comprises case studies originally published in the journal *Current Issues in Language Planning*

Culture Across Borders David Maciel, Mar'a Herrera-Sobek, 1998 For as long as Mexicans have emigrated to the United States they have responded creatively to the challenges of making a new home But although historical sociological and other aspects of Mexican immigration have been widely studied its cultural and artistic manifestations have been largely overlooked by scholars even though Mexico has produced the greatest number of cultural works inspired by the immigration process And recently Chicana o artists have addressed immigration as a central theme in their cultural productions and motifs Culture across Borders is the first and only book length study to analyze a wide range of cultural manifestations of the immigration experience including art literature cinema corridos and humor It shows how Mexican immigrants have been depicted in popular culture both in Mexico and the United States and how Mexican and Chicano Chicana artists intellectuals and others have used artistic means to protest the unjust treatment of immigrants by U S authorities Established and upcoming scholars from both sides of the border contribute their expertise in art history literary criticism history cultural studies and other fields capturing the many facets of the immigrant experience in popular culture Topics include the difference between Chicano a and Mexican representation of immigration how films dealing with immigrants are treated differently by Mexican Chicano and Hollywood producers the rich literary and artistic production on immigration themes and the significance of immigration in Chicano jokes As a first step in addressing the cultural dimensions of Mexican immigration to the United States this book captures how the immigration process has inspired powerful creative responses on both sides of the border

Urban Wolof across Borders Aziz Dieng, 2024-06-20 This book takes urban Wolof

beyond Senegal to consider the effects of mobility on language and examine how the diasporans engage in their daily language practices as transmigrants The parallel between languaging and migrating underpins the author s argument as he examines the dynamicity of languaging at both micro and macro levels as speakers navigate across spaces and languages Moving away from a code based approach the author makes a compelling case that the urbanite rather than shuttling between codes deploys instead idiolectal features from a unique linguistic repertoire which comprises at once semiotic cognitive and language features His indigenous approach affords novel perspectives in linguistic ethnography and complements the Euro Western methodologies
