s sheer size and unusual structure can be daunting Fleming's long time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create *Surviving the Future*. The content, rare insights and uniquely enjoyable writing style remain Fleming's but are presented here at a more accessible paperback length and in conventional front to back format. The subtitle *Culture, Carnival and Capital in the Aftermath of the Market Economy* hints at Fleming's vision. He believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges but he did not dwell on this. We know what we need to do. We need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow. *Surviving the Future* lays out a compelling and powerfully different new economics for a post growth world. One that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality but on the play, humor, conversation and reciprocal obligations of a rich culture. Building on a remarkable breadth of intellectual and cultural heritage from Keynes to Kumar, Homer to Huxley, Mumford to MacIntyre, Scruton to Shiva, Shakespeare to Schumacher, Fleming describes a world in which, as he says, there will be time for music. This is the world that many of us want to live in yet we are told it is idealistic and unrealistic. With an evident mastery of both economic theory and historical precedent, Fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity. With friendliness, humor and charm, *Surviving the Future* plucks this vision out of our daydreams and shows us how to make it real. Step into the world of David Fleming, you'll be so glad you did. Rob Hopkins, cofounder of the Transition Network.

Women's Fiction 1945-2005 Deborah Philips, 2007-11-01

Organised around each decade of the post war period, this book analyses novels written by and for women from 1945 to the present. Each chapter identifies a specific genre in popular fiction for women which marked that period and provides case studies focusing on writers and texts which enjoyed a wide readership. Despite their popularity, these novels remain largely outside the canon of women's writing and are often unacknowledged by feminist literary criticism. However, these texts clearly touched a nerve with a largely female readership and so offer a means of charting the changes in ideals of femininity and in the tensions and contradictions in gender identities in the post war period. Their analysis offers new insights into the shifting demands, aspirations and expectations of what a woman could and should be over the last half century. Through her analysis of women's writing and reading, Philips sets out to challenge the distinction between popular and literary fiction, arguing that neat categories such as popular, middle brow and serious fiction need more careful definition.
