disappearances in Latin America and in more quotidian circumstances where people walk out on their families and disappear of their own volition. When someone goes missing we often find that we didn't know them as well as we thought there is a sense in which we are missing even to our nearest and dearest and even when we are present not absent. In this thought provoking book Edkins investigates what this more profound missingness might mean in political terms. **Writing Back Through Our Mothers** Tegan Zimmerman, 2014.
