Bove, 2011-12-27 Looks at the basics of using a Mac, covering such topics as the desktop, working with files and folders, using Pages, playing movies, organizing photos, playing music, browsing the Internet, and computer security. No Sense in Wishing Lawrence Burney, 2025-07-08 Among the most profound and dazzling debuts I've ever read, Kiese Laymon, award-winning author of *Heavy*, an American memoir, an essay collection from culture critic Lawrence Burney that is a personal and analytical look at his home city of Baltimore, music from throughout the global Black diaspora, and the traditions that raised him. There are moments throughout our lives when we discover an artist, an album, a film, or a cultural artifact that leaves a lasting impression, helping inform how we understand the world and ourselves moving forward. In *No Sense in Wishing*, Lawrence Burney explores these profound interactions with incisive and energizing prose, offering us a personal and critical perspective on the people, places, music, and art that transformed him. In a time when music is spearheading Black Americans' connection with Africans on the Continent, Burney takes trips to cover the bubbling creative scenes in Lagos and Johannesburg that inspire teary-eyed reflections of self and belonging. Seeing his mother perform as the opening act at a Gil Scott Heron show as a child inspires an essay about parent-child relationships and how personal taste is often inherited. And a Maryland crab feast with family facilitates an assessment of how the Black people in his home state have historically improvised paths for their liberation. Taking us on a journey from the streets of Baltimore to the concert halls of Lagos, *No Sense in Wishing* is a kaleidoscopic exploration of Burney's search for self. With its gutsy and uncompromising criticism alongside intimate personal storytelling, it's like an album that hits all the right notes from a promising writer on the rise.
