Strongmen Ruth Ben-Ghiat, 2020-11-10 New York Times Bestseller What modern authoritarian leaders have in common and how they can be stopped Ruth Ben Ghiat is the expert on the strongman playbook employed by authoritarian demagogues from Mussolini to Putin enabling her to predict with uncanny accuracy the recent experience in America and Europe In *Strongmen* she lays bare the blueprint these leaders have followed over the past 100 years and empowers us to recognize resist and prevent their disastrous rule in the future For ours is the age of authoritarian rulers self proclaimed saviors of the nation who evade accountability while robbing their people of truth treasure and the protections of democracy They promise law and order then legitimize lawbreaking by financial sexual and other predators They use masculinity as a symbol of strength and a political weapon Taking what you want and getting away with it becomes proof of male authority They use propaganda corruption and violence to stay in power Vladimir Putin and Mobutu Sese Seko's kleptocracies Augusto Pinochet's torture sites Benito Mussolini and Muammar Gaddafi's systems of sexual exploitation and Silvio Berlusconi and Donald Trump's relentless misinformation all show how authoritarian rule far from ensuring stability is marked by destructive chaos No other type of leader is so transparent about prioritizing self interest over the public good As one country after another has discovered the strongman is at his worst when true guidance is most needed by his country Recounting the acts of solidarity and dignity that have undone strongmen over the past 100 years Ben Ghiat makes vividly clear that only by seeing the strongman for what he is and by valuing one another as he is unable to do can we stop him now and in the future

Ransom Kidnapping in Italy Alessandra Montalbano, 2023-12-18 For over thirty years modern Italy was plagued by ransom kidnappings perpetrated by bandits and organized crime syndicates Nearly 700 men women and children were abducted from across the country between the late 1960s and the late 1990s held hostage by members of the Sardinian banditry Cosa Nostra and the Ndrangheta Subjected to

harsh captivities and psychological abuse the victims spent months and even years in isolation while law enforcement and the state struggled to find them Ransom Kidnapping in Italy examines this Italian criminal phenomenon Alessandra Montalbano argues that abduction is a key vantage point from which to understand modern Italy it troubled the law terrified society ignited juridical and parliamentary debates and mobilized citizens Bringing together archival and media materials with the victims accounts and diverse forms of cultural response the book examines ransom kidnapping through the lenses of historiography law literary criticism trauma studies phenomenology and political philosophy Ransom Kidnapping in Italy traces how and at what price Italians became aware of living in a country that was being blackmailed by criminal organizations that arguably jeopardized the nation even more than terrorism **Something Incredibly Wonderful**

Happens K.C. Cole, 2024-05-31 How do we reclaim our innate enchantment with the world And how can we turn our natural curiosity into a deep abiding love for knowledge Frank Oppenheimer the younger brother of the physicist J Robert Oppenheimer was captivated by these questions and used his own intellectual inquisitiveness to found the Exploratorium a powerfully influential museum of human awareness in San Francisco that encourages play creativity and discovery all in the name of understanding In this elegant biography K C Cole investigates the man behind the museum with sharp insight and deep sympathy The Oppenheimers were a family with great wealth and education and Frank like his older brother pursued a career in physics But while Robert was unceasingly ambitious and eventually came to be known for his work on the atomic bomb Frank s path as a scientist was much less conventional His brief fling with the Communist Party cost him his position at the University of Minnesota and he subsequently spent a decade ranching in Colorado before returning to teaching Once back in the lab however Frank found himself moved to create something to make the world meaningful after the bombing of Hiroshima and Nagasaki He was inspired by European science museums and he developed a dream of teaching Americans about science through participatory museums Thus was born the magical world of the Exploratorium forever revolutionizing not only the way we experience museums but also science education for years to come Cole has brought this charismatic and dynamic figure to life with vibrant prose and rich insight into Oppenheimer as both a scientist and an individual **SILVIO**
