BOOK JACKET Modality and Diachronic Construction Grammar Martin Hilpert, Bert Cappelle, Ilse

Depraetere, 2021-10-15 This volume explores how Diachronic Construction Grammar can shed new light on changes in a central and well researched domain of grammar namely modality Its main goal is to show how constructional analyses can help us address some of the long standing questions that have informed discussions of modal expressions and their development and to illustrate the processes that are involved in these developments on the basis of data from languages such as English Finnish French Galician German and Japanese The studies in this volume are organized around three interrelated topics The first of these concerns the organization of modal constructions in a network A second focus area of the studies in this volume concerns the developmental pathways that modal constructions follow diachronically The third topic that ties the contributions of this volume together is the contrast between constructionalization and constructional change

Grammar in ELT and ELT Materials Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching Using a mixed methods approach the author examines how the syllabuses used in coursebooks are actually constructed how they evolved and how valid their contents are as a basis for teaching The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar ten interviews with key ELT authors and publishing professionals which allows for the investigation of the decision making processes underlying the choice of grammar content in ELT teaching materials and finally the presentation of case studies which examine three areas of grammar analysing the evolution of their treatment in ELT materials both historical and contemporary and comparing their current treatment to data on real learner use This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design It will be of interest to researchers and professionals working in the fields of applied linguistics pedagogical grammar curriculum design and materials design

Enhancements and Limitations to ICT-Based Informal Language

Learning: Emerging Research and Opportunities Ahmed, Rashad, Al-kadi, Abdu, Hagar, Trenton, 2020-01-03 In today's modernized world digital technology has taken the forefront in all aspects of society including education Students have access to numerous electronic devices which has made online learning materials highly accessible These technological impacts have blurred the distinction between formal and informal language learning methods Informally learned English has

lost proficiency when assessing student performance Sizable research is necessary to study and understand the informal methods of language learning using technology Enhancements and Limitations to ICT Based Informal Language Learning Emerging Research and Opportunities is a pivotal reference source that provides vital research on the implementation of technological opportunities within informal language teaching methods along with the drawbacks that limit its efficiency While highlighting topics such as acculturation student perception and autonomous applications this publication explores how learners perform ICT based activities beyond the classroom and assesses the linguistic gains generated by informal ICT uses This book is ideally designed for teachers IT consultants educational software developers researchers policymakers and academic professionals seeking current research on technological techniques within second language learning and teaching
