How different would mythological narratives be if women voiced their perspectives Amidst great wars superhuman heroes and their glorious victories is there a place for women Are great wars limited to armed conflicts between armies of men on the battlefields Do women have their own battles before after and beyond the confines of wars in the epic narratives of India Both the Ramayana and the Mahabharata have integrated into our social and cultural fabric and permeated into the myriad layers of life across genres and media It is a common practice to revisit mythological landscapes and realign the lenses to look at them afresh from different perspectives Re renderings often bring in multiple interpretations that are creative and critical adding variety and currency to the original narratives Vision and Re vision traces the lives of seven marginalized women from revisionist works against the central motif of war It follows the pursuits of Ganga Surpanakha Uruvi Sita Urmila Satyawati and Draupadi to understand their struggles and victories as women Analyzing textual spaces provided to women it explores their marginalized voices and their resistance patterns These in turn establish new narratives of subversion and reclaim the voices and identities of women from the margins A sound theoretical framework enables a comprehensive understanding of feminism and its distinct Indo centric identity **The Poetics of Myth** Eleazar M.
