Portrait of a Patron Susan Jenkins,2017-03-02 Once described as England s Apollo James Brydges first Duke of Chandos 1674 1744 was an outstanding patron of the arts during the first half of the eighteenth century Having acquired great wealth and influence as Paymaster General of Queen Anne s forces abroad Chandos commissioned work from leading artists architects poets and composers including Godfrey Kneller William Talman Sir John Vanbrugh Sir James Thornhill John Gay and George Frederick Handel Despite his associations with such renowned figures Chandos soon gained a reputation for tasteless extravagance This reputation was not helped by the publication in 1731 of Alexander Pope s poem Of Taste which was widely regarded as a

satire upon Chandos and Cannons the new house he was building near Edgware The poem destroyed Chandos's reputation as a patron of the arts and ensured that he was remembered as a man lacking in taste Yet as this book shows such a judgement is plainly unfair when the Duke's patronage is considered in more depth and understood within the artistic context of his age By investigating the patronage and collections of the Duke through an examination of documentary sources and contemporary accounts it is possible to paint a very different picture of the man Rather than the epitome of bad taste described by his enemies it is clear that Chandos was an enlightened patron who embraced new ideas and strove to establish a taste for the Palladian in England which was to define the Georgian era

Malayan Classicism Soon-Tzu Speechley, 2023-11-30 Through a broad range of case studies spanning from imperial monuments to rural residences Malayan Classicism puts forward a fundamentally new understanding of classical architecture in the Asian colonial context Across Malaysia and Singapore thousands of historic buildings are richly ornamented with motifs drawn from Ancient Greece and Rome as plump volutes lush acanthus leaves and neat rows of dentils decorate mosques palaces government buildings and innumerable terraced shophouses These classical details jostle with ideas drawn from other architectural traditions from across Asia in a style that is unique to the region Presenting the first comprehensive account of what was prior to World War II Malaya's most widespread architectural style Malayan Classicism explores how the classical architecture of the British Empire was transmitted translated and transformed in the hands of local builders and architects Addressing a critical gap in the scholarship this book charts the metamorphosis of an imperial language of power into a local vernacular style and provides a new way of reading classical architecture in a post colonial context that will be applicable throughout the Global South
