digital age Accidental Conflict Stephen Roach, 2022-11-08 The misguided forces driving conflict escalation between America and China and the path to a new relationship A timely fluid readable assessment of a testy and rapidly changing global relationship Kirkus Reviews starred review In the short span of four years America and China have entered a trade war a tech war and a new Cold War This conflict between the world's two most powerful nations wouldn't have happened were it not for an unnecessary clash of false narratives America falsely blames its trade and technology threats on China yet overlooks its shaky saving foundation China falsely blames its growth challenges on America's alleged containment of market based socialism ignoring its failed economic rebalancing In a hard hitting analysis of both nations economies politics and policies Stephen Roach argues that much of the rhetoric on both sides is dangerously misguided amplified by information distortion and more a reflection of each nation's fears and vulnerabilities than a credible assessment of the risks they face Outlining the disastrous toll of conflict escalation between China and America Roach offers a new road map to restoring a mutually advantageous relationship International Handbook of Media Literacy Education Belinha S. De Abreu, Paul Mihailidis, Alice Y.L. Lee, Jad Melki, Julian McDougall, 2017-04-21 At the forefront in its field this Handbook examines the theoretical conceptual pedagogical and methodological development of media literacy education and research around the world Building on traditional media literacy frameworks in critical analysis evaluation and assessment it incorporates new literacies emerging around connective technologies mobile platforms and social networks A global perspective rather than a Western centric point of view is explicitly highlighted with contributors from all continents to show the empirical research being done at the intersection of media education and engagement in daily life Structured around five themes Educational Interventions Safeguarding Data and Online Privacy Engagement in Civic Life Media Creativity and Production Digital Media Literacy the volume as a whole emphasizes the competencies needed to engage in meaningful participation in digital culture

The Uses and Abuses of Weaponized Interdependence Daniel W. Drezner, Henry Farrell, Abraham L. Newman, 2021-03-02 How globalized information networks can be used for strategic advantage Until recently globalization was viewed on balance as an inherently good thing that would benefit people and societies nearly everywhere Now there is growing concern that some countries will use their position in globalized networks to gain undue influence over other societies through their dominance of information and financial networks a concept known as weaponized interdependence In exploring the conditions under which China Russia and the United States might be expected to weaponize control of information and manipulate the global economy the contributors to this volume challenge scholars and practitioners to think differently about foreign economic policy national security and statecraft for the twenty first century The book addresses such questions as What areas of the global economy are most vulnerable to unilateral control of information and financial networks How sustainable is the use of weaponized interdependence What are the possible responses from targeted actors And how sustainable is the open global economy if weaponized interdependence becomes a default tool for managing

international relations **Making Policy for the New Information Economy** Krishna Prasad Jayakar, Chun Liu, 2023-09-10 This volume is a theoretically informed comparative analysis of the telecommunications and information policy making process in two major developing economies China and India With a focus on how policies are made rather than what those policies are the book investigates how policy actors interact within institutional structures to define policy problems and identify potential solutions The authors explain the evolution of these policy making systems as the two countries liberalized their economies and opened their media and telecommunications systems to competition over the past two and a half decades With applications in numerous international contexts this book will be of interest to scholars and practitioners in public policy studies telecommunications business development economics political science Asian studies and public administration

The Oxford Handbook of Cyber Security Paul Cornish, 2021-11-04 Cyber security is concerned with the identification avoidance management and mitigation of risk in or from cyber space The risk concerns harm and damage that might occur as the result of everything from individual carelessness to organised criminality to industrial and national security espionage and at the extreme end of the scale to disabling attacks against a country's critical national infrastructure However there is much more to cyber space than vulnerability risk and threat Cyber space security is an issue of strategy both commercial and technological and whose breadth spans the international regional national and personal It is a matter of hazard and vulnerability as much as an opportunity for social economic and cultural growth Consistent with this outlook The Oxford Handbook of Cyber Security takes a comprehensive and rounded approach to the still evolving topic of cyber security The structure of the Handbook is intended to demonstrate how the scope of cyber security is beyond threat vulnerability and conflict and how it manifests on many levels of human interaction An understanding of cyber security requires us to think not just in terms of policy and strategy but also in terms of technology economy sociology criminology trade and morality Accordingly contributors to the Handbook include experts in cyber security from around the world offering a wide range of perspectives former government officials private sector executives technologists political scientists strategists lawyers criminologists ethicists security consultants and policy analysts
